Security Industry Continue To Survive the Covid Crisis

April 29, 2020

April 29, 2020 -
With the closure of some establishments such as malls and schools due to the threats of Covid-19, security guard service has been reduced in various areas. However, despite the global pandemic, the security industry remains strong, according to Security Now USA, the Best Security Guard Service in the USA.

California-based Security Now USA is one of the businesses that remain in operation despite the threat of the virus. Apart from providing security, guards have been tasked to provide hand sanitizer, masks, as well as gloves for the customers of the establishment they serve. It has also been an added task for them to check the temperature and inspect people before allowing them to enter the premises they secure.

According to the company, security guards are now much needed in hospitals, other healthcare institutions, grocery stores, as well as for some closed facilities. Security guards remain on the frontline and help maintain order in these essential establishments.

As they continue to operate, the Hospital Security Security Service Provider in the USA provides its services, observing precautionary measures. From booking a guard and assigning them in the field, they ensure that safety protocols are applied. The company also assured that all their guards had been trained on how to avoid the spread of Covid-19. Their guards are also trained in handling people, especially for this challenging

situation.

Aside from professionalism, the company also boasts its well-equipped personnel. Unarmed guards are highly-trained with the necessary skills to perform their job, while armed guards have the required equipment.

The company also complements its capable people with the most advanced technology in its operation. The company created its mobile app with high-tech security features. The Security Now USA app allows real-time reporting and quick response. Guards can report the incident as it happens to alert the company to provide necessary action.

?Our professionalism and experience is what separates us from the competition. There is no one out there that can do better than us when it comes to providing tight and advanced security services. We have rolled out an app exclusively for our clients, which allows them to monitor and communicate with their security guard in real-time,? says Security Now USA.

Security Now USA also puts a priority on its customers. They provide their clients the convenience to adjust the number of guards and the amount of time they have to render to ensure a cost-effective security plan. They also offer a no-hassle booking and free quotation. Call them at 1-888-239-7621.

Besides providing security for various establishments, the General Security Services in the USA also offers specialized services such as intelligence security, dispensary security, maritime security, temporary security guards, and fire watch services.
