

Small Business, IT Teams Get Free Learning Tools From Projects by Design

May 01, 2020

May 01, 2020 -
Projects by Design, the Best Agile Training Provider in Bluffton, SC, is providing free learning tools for businesses as well as information technology (IT) teams in South Carolina.

The learning tools covering several topics on project management and team handling can be accessed online through their official website, https://projectsbydesign.net/. Any business, especially the small ones, have to apply through the site to access the course content for each learning tool.

The first tool focuses on the four key components of an effective Agile Framework implementation strategy. The course entitled Developing an Agile Implementation Strategy provides a thorough explanation of Agile Implementation Resource. Agile is an approach to project management that prioritizes incremental, fast, and result-driven changes into software development.

Agile is also utilized by a lot of project managers nowadays for its proven effectiveness in reaching a goal faster. Agile organizations are believed to finish projects on time and faster compared to non-agile companies.

The Best Agile Coach Training Online in Bluffton, SC also offers a free course on how to kick start a project using a project canvas. A project canvas is a visual tool used by managers to allow engagement among team members. It aims to make all team members involved and to give them a clear understanding of their projects.

The project consulting company likewise started a new course on how to use Tuckman?s Ladder in building high performing teams. Their president, Mr. Dan Barringer, presents the free online course. Barringer is a program and project management expert with over two decades of experience. The step-by-step course focuses on strategies on how to develop a productive and goal-oriented team.

?At Projects by Design, we combine our practical experience as project managers with the best in class professional best practices and instructions to deliver the highest quality project management products and solutions for your team,? the company states.

Aside from the learning tools, the company also helps transform businesses in Bluffton, SC, by providing professional consulting services. The company helps project management officers (PMOs) on how to best structure a team or project. The Best Agile Project Management Training Bluffton, SC, also helps PMOs create a program to solve a specific need.

?We can bring agility into your project delivery model, or help you transform into an Agile delivery team,? the project management company states.
