

## Newly Upgraded Spy Camera Pen Launched On Amazon

*August 25, 2015*

August 25, 2015 - PRESSADVANTAGE -

Catonsville, Maryland based company Ron's Amazing Products has launched a newly upgraded spy camera pen on the Amazon marketplace. Regarding the product launch, Ronald Hoff, owner and CEO of Ron's Amazing Products, said, "The camera has an amazing video quality of 1280x720 and High Resolution Photos with 1600x1200 pixels. Another new cool feature is it turns off while recording to make it more discrete."

The camera pen, which can be seen at <http://www.amazon.com/gp/product/B00G2TEKM2>, offers 8GB of built in memory, and comes with everything needed to save photos and files. "There's no need to carry memory cards. Everything is build right in, so you can just grab it and go," says Ronald Hoff.

Video quality is 30FPS AVI format, and the HD effect photos in JPEG offer resolution quality of 1600x1200, which produces crystal clear pictures, and enables users to instantly share their images via email or social media sites. The camera also features a 1.3 megapixel digital HD effect camera lens, which enables graphic design options when desired. It is equipped with a rechargeable lithium ion battery that is built in, which

provides for up to 60 minutes of video recording time.

"The video recorder is great," states an Amazon customer. "I use it all the time to get gag videos of my friends and then we have a blast playing them over and over."

The spy pen camera offers plug and play operation and comes with a built in USB connector, or the USB cable can be used to charge the pen through a computer. The camera or cable can be plugged into any computer or smart TV for viewing videos, and is equipped to run on Apple, Linux, and Windows operating systems.

Sales of the pen camera has skyrocketed since its release, as consumers are finding it a fun and entertaining way to capture images and video. Not requiring additional accessories such as storage cards and cables, has also added to its popularity.

Ron's Amazing Products offers a number of consumer products, including their upgraded spy pen camera, which can all be viewed on the company's official website.
