## Furnace Repair Toronto Offers Service Plans Through Martino HVAC

May 04, 2020

May 04, 2020 - PRESSADVANTAGE -

Toronto, ON based Furnace Repair Toronto is pleased to inform the communities they serve that customers may access their service plans through their partner, Martino HVAC. This will allow local residents and businesses to seek out the best service plans available through a more convenient location, should they be situated in Martino HVAC?s coverage area.

There are a wide range of benefits offered by a Martino HVAC service plan. These advantages include access to licensed and experienced technicians who are thoroughly trained to offer a professional service no matter how large or small the job in question is. With their help, a homeowner or business can rest assured that their HVAC system has received the proper attention and had any hidden issues resolved, even if it is not what Martino HVAC was originally called to remedy. In such cases, the system?s owner will be notified that additional work may be required, and they can then choose whether or not to act on the professional recommendation they receive.

This policy speaks to the high quality of customer service offered by Martino HVAC, since they make it their mission to keep their customer informed of all progress at each stage of a system?s repair. In turn, customers are able to keep track of everything that happens to their system, and the recommendations offered by their visiting technician will allow them to make an informed choice regarding the ongoing care of their unit. In most cases, however, the company states that customers should act on the advice they receive as early as possible, since postponing a repair may lead to a relatively minor issue developing more critical consequences in the future. The ultimate choice, however, will always be in the customer?s hands, and Martino HVAC?s technicians will not proceed without their explicit consent. Learn more about the company?s approach to customer service at the following link: Furnace Repair Toronto Ontario.

Customers will also be pleased to know that the company supports flexible payment options that take the average homeowner into account. Local residents may reach out to the company?s customer service department in order to inquire further on the subject, but most will likely opt for Martino HVAC?s monthly payment plan (which automatically renews each year) or pre-pay so that they may take advantage of the

annual savings this offers. A full list of rates and related information can be found on Marino HVAC?s

website.

Martino HVAC gives customers the ability to modify their plans so that the services they are eligible to receive

cover exactly what they require, no more and no less. For instance, both the Martino Maintenance Plan and

Martino Protection Plan provide priority service with no after-hour fees. However, only the Martino Protection

Plan gives customers the reassurance of knowing that any future repairs that cost up to \$1,500 will promptly

be handled by the company?s technicians. Customers of both plans are also eligible for an annual tune up,

warranty validation, special repair pricing and so on. The key difference between these two plans is that one

offers tune-ups (Martino Maintenance Plan) while the other offers both tune-ups and protection from future

incidents (Martino Protection Plan).

Their customers often leave highly positive reviews of the company. Scott Fischer says in their 5-Star review

that, ?The salesman, Adam, came out and looked at the installation required and provided me with the

requirements. Equipment and a team of three arrived on the agreed date, and the installation went without

issues. The installation team was courteous, detail oriented and completed the job in good time. Great

experience.?

Similarly, Andreas Evangelou says, ?We had Martino HVAC service our furnace and air conditioner for three

years now, and they had always done an excellent job! JP and others at Martino HVAC had also given us a

few tips along the way to help us maintain our furnace and air conditioner as well as how to maintain clean

and safe air within an enclosed area, such as a home. Thanks JP, always appreciate your advice.?

More information regarding the furnace company can be found on their website. Customers are welcome to

reach out to Michael Coy of Furnace Repair Toronto in order to follow up on any further inquiries as well.
