

Panama City Interior Landscaping Company Showcases Benefits of Plant Life in the Office

April 30, 2020

April 30, 2020 - PRESSADVANTAGE -

Panama City, Fla. ? During this time of travel and business restriction, Heroman Plant Services, a Panama City landscaping company, is looking to highlight the wide variety of science-backed benefits of office plants. Many experts suggest adding greenery to workspaces to alleviate the feeling of closed-in spaces feeling stuffy or artificial, but additionally, there are many proven health benefits to plant life in an office setting.

Recent studies have shown that having a plant in a small room for just 24 hours can remove up to 87% of toxins. In addition, plants release roughly 97% of the water they take in, which can help increase the humidity in a small office. Various studies originating from the Agricultural University of Norway document that using plants in interior spaces can decrease the incidence of dry skin, colds, sore throats and dry coughs.

Heroman Services? have been utilized in office spaces using plant life as décor that can be highly customized. Heroman Services Plant Company is the leading Interior Landscaping firm along the Gulf Coast and is ranked as a Top 25 company nationwide. Plants can make a substantial improvement in a home or office, both physically and mentally. Creating a healthier and more appealing home or office is as simple as consulting Panama City interior landscapers to bring in the right greenery.

As a six-generation horticulture family, Heroman Services provide personalized designs, installations, horticultural service and maintenance programs for hundreds of prestigious clients across the South.
