MINNEAPOLIS, MN - May 04, 2020 -

Minneapolis, Minnesota based The Key Guys is reaching out to their clients to remind them that they can have a car key locksmith sent to any location for an on-spot solution. For several years, The Key Guys have remained as one of the most distinguished local locksmiths in the Minneapolis area. Their commitment towards their clients, along with the quality of their services and the broad coverage that they offer, is what has set them apart from their competitors over the years. "Losing your keys, breaking them or even leaving them inside the car, can put you in a very dire situation. He adds that most of these situations can be easily solved within an hour by a qualified professional.

Nystrom continues, "We are fully prepared to give you the professional attention that you need without compromising your convenience or making you waste your valuable time. Our clients all across the Minneapolis area can rely on locksmiths regardless of whether they need their car keys repaired, a broken key removed or one of their locks fixed. We'll come to you, wherever you are, and offer you an on-the-spot solution, freeing you of towing fees and sending you back on your way in record time without any further issues."

Their outstanding customer service is what has earned The Key Guys their trusted reputation in the Minneapolis area. They are also the preferred option for local residents whenever the need for a locksmith arises. One of their most recent customer reviews, written by S. Phillips, says, "Called The Key Guys at about 8 am, they got me on the same day. It only took about 10-15 minutes to open my locked car and make me a key so I can drive and unlock my car. Plus reasonable pricing! Brian was a very friendly driver. I made sure I knew that, if I find my old key, they can program it back to my car! Thanks again, guys."

Another review, written by H. Blumer, says, "We needed a second key made for our car. I called Bryan at The Key Guys, and he was able to come out the next day to our house to make a key for us. Saved us time going to the dealer, and he was much less expensive than what the dealership quoted me. He was prompt and friendly. I would definitely recommend him!"

Tim O. also says, "Lost keys to our Lexus. Called The Key Guys, they showed up in less than an hour, got in, programmed the car and made a key. Everything was perfect. Price was more than fair, considering what the dealership quoted us! Very personable, great customer service. I will recommend Brian to everyone. Thank you, Key Guys!"
