Roofer in Naperville Offers Storm Repair Estimates

May 04, 2020

CAPE CORAL, FL - May 04, 2020 -
Naperville Roofing & Construction has announced that they are offering storm repair estimates for homeowners in Naperville, Illinois, and neighboring areas. They provide on-site storm damage inspections to enable them to make an estimate of the repair costs for homes in Homer Glen, Plainfield, Lockport, Joliet, Minooka, Crest Hill, or Naperville. They have a trustworthy team of roofing contractors who are dedicated to providing dependable service that is expected to leave customers more than satisfied.

When a severe storm causes damage to the roof and other parts of the home, it is important to act as promptly as possible because there is a limited time in which to act to resolve the damages with the insurance company. If not, the homeowner will be entirely responsible for all of the repair costs. It is important to get the services of a GAF Certified local roofer to do the inspection and obtain an estimate of the repair costs.

Naperville Roofing & Construction is one such roofing contractor who can work with many of the biggest insurance firms upon request by customers. The also have extensive roofing references in Naperville, Bolingbrook, Wheaton, Plainfield, Downers Grove, Woodridge, Joliet, Oakbrook, Romeoville, Westerns Springs, La Grange, St. Charles, Lockport, Orland Park and other surrounding suburbs.

James Kucharz, President of James Kucharz, says, ?We offer on-site estimates for all roofing construction and re-roofing projects so that there are no financial or time-related surprises down the line. We want to make your roofing installation project exciting, not stressful. For more information on our residential roofing services or to set up an appointment with a company representative, call us today.?

Naperville Roofing & Construction has developed a reputation of being a roof installation provider using only the finest premium quality asphalt shingles, cedar shake shingles, traditional shingles, or slate tile roofing. This means that even the most particular clients have been satisfied with the excellent materials used and the workmanship of the roofing contractors.

There are a number of factors that they believe make them stand out from the crowd in the roofing industry. These include being an accredited business by the Better Business Bureau (BBB); the fact they serve northern Illinois in Naperville, Homer, Lockport, Plainfield, and Glen; their GAF Certified Installer status, which means that a new GAF roof that they have installed is warranted to the highest level by the manufacturer; and the fact that their crews are composed of professional roofing contractors with no less than 10 years of experience.

For homeowners who require roof repair, Naperville Roofing & Construction provides the leading GAF Certified local roof repair contractor and crew. They have the talent and the experience to offer roofing repair and shingle repair at reasonable prices along with reliable workmanship. Having over 20 years of experience in the roofing repair industry, Naperville Roofing & Construction is recognized as one of the top home roofing repair companies in the Greater Chicago Metropolitan Area. Having a high quality roof is essential to adequately protect the home from destructive elements in the environment and to prevent any underlying issue from occurring.

An expertise of Naperville Roofing & Construction is the shingled roof. They have been helping Chicagoland homeowners for more than 20 years with their shingled roof design, installation, and repair. And they have been working with the same roofing technicians for the past decade. This ensures the consistency and the quality of the roofing work that they provide.

The shingled roof is the most common type of roof in the area. This is because shingled roofs are not just affordable. They are also available in a wide range of thicknesses, dimensions, and colors and it is possible to match the roof with the home?s exterior. And best of all, the shingled roofs they provide come with a 100 percent transferable warranty in the event that the homeowner decides to move, in addition to the standard lifetime warranty.

Those who are looking for a reliable roofer in Naperville may want to check out the Naperville Roofing & Construction website, or contact them on the phone, or through email.
