Austin, TX -- Markus Heitkoetter, financial education author and President of Rockwell Trading Services, LLC, is proud to announce that his book, "The Simple Strategy - A Powerful Day Trading Strategy For Trading Futures, Stocks, ETFs and Forex," has reached the one year mark as the #1 best seller for the category of futures and commodities. Available in the popular e-book format, the book supports beginning and experienced investors, using proven concrete strategies to improve their trading success and increase their income.

Heitkoetter is a firm believer that the most important tool for a trader is a profitable trading strategy. In "The Simple Strategy - A Powerful Day Trading Strategy For Trading Futures, Stocks, ETFs and Forex," he provides readers with just that. A quick read, the book sets itself apart from other trading guides through its clear and concise presentation of trading rules, allowing readers to benefit from the small intraday trends of today's markets, while leaving no room for second guessing. According to Heitkoetter, the methods presented in the Rockwell Trading ebook require no complicated trading software, enabling even inexperienced traders to follow the strategy.

In addition to authoring a number of trading guides and educational books, Heitkoetter is the founder and president of Rockwell Trading Services, LLC. He founded the company after rising from an inexperienced day trader to a highly regarded provider of effective trading education. Through his company, Heitkoetter is able to reach individual investors with small or large accounts, helping them to achieve their trading goals, whether they are just beginning in the industry or if they are experienced traders. The company offers a wide variety of educational materials in a range of formats including videos, books, and webinars.
