

# Baltimore Plastic Surgery Clinic Reopens At Normal Operating Hours

*May 11, 2020*

May 11, 2020 - PRESSADVANTAGE -

The Maryland based Baltimore Plastic and Cosmetic Surgery Center is pleased to inform their community that they have returned to their usual business hours, following a reduction in services due to the COVID-19 pandemic. Since Friday (5-8-20), the plastic surgery clinic has been seeing patients for consultations and procedures at regular times. More information regarding the clinic, their services, staff and so on can be found on their website at the following link: [Cosmetic Surgery Baltimore](#).

Notably, the clinic states that they are still approaching the COVID-19 pandemic with extreme caution and placing a high priority on the safety of their patients as well as their staff. They assert, "Our practice was already known for being one of the most sanitary and hygienic places in the region. This is both due to the nature of our work and the need for an absolutely sterile environment as well as our preference for maintaining a professional atmosphere. Today, we recognize that certain factors out of our control may make this environment more difficult to sustain. Instead of backing down, however, we have taken additional measures to ensure the safety of our patients and eliminate the risk of infection from COVID-19 as much as possible."

Led by Dr. Jeffrey Schreiber, the staff at the Baltimore Plastic and Cosmetic Surgery Center are medical professionals who are well aware of all the precautions that need to be taken in order to reduce the risks of viral transmission. COVID-19 is known to be highly infectious but the usual methods of transmissions are known as well, and more information regarding the virus is coming out every day from sources all over the world. Dr. Schrieber and his staff will be keeping a sharp eye on this data as it is made available, and they will act accordingly in order to protect themselves and their patients. In fact, should the need arise in the future, the Baltimore plastic surgery center will restrict their operating hours once again.

"All of these precautions are intended to reassure you that you are perfectly safe with us," the clinic states. "We screen every individual who visits our premises, and we disinfect every communal surface on a regular basis. We have also adopted the use of gloves and masks wherever we deem necessary. It is our hope that these measures reassure you that everything is well in hand?there should be no reason for you to delay your

appointments with us. In any case, we invite you to raise all your concerns with our staff when you contact us to schedule your next visit. In these uncertain times, we understand the need to keep our patients as informed as possible.?

The Baltimore Plastic and Cosmetic Surgery Center offers a wide variety of services that focus on the face, body, breasts and skin care. The incredibly high standards they apply to their work have led to patients coming from far and wide for breasts enhancement, body contouring, facial rejuvenation, hair transplant, Coolsculpting procedures and so on. It is a testament to the quality of their work that patients often leave glowing reviews of the practice online.

On the Google platform, for instance, the Baltimore Plastic and Cosmetic Surgery Center boasts a full 5-Star review score, aggregated over nearly 300 individual patient reviews. One such review shares that, ?I am on day four after having my breast augmentation. Dr. Schreiber has been wonderful throughout my entire experience. He has been resourceful and informative since day one at my consultation. He gave me his personal cell phone number to contact him if I had any questions or concerns. I texted him and asked him a few questions, and he called me not even 30 minutes after. There hasn?t been a moment where I felt lost in this process; him and his office deliver excellent patient care. I am so happy with my decision on going to him for my breast augmentation.?

Other reviews share this perspective as well. Angela Jean-Louis says, ?Dr. Schreiber is amazing! After two kids at 40, it left me with stretched stomach muscles and a hernia from my huge muscle separation. I needed a full tummy tuck. He made me feel unbelievably comfortable, and he was available anytime I had a concern (including weekends). I've gotten so many compliments from the major improvement. I definitely recommend him for whatever you need.? Read more reviews at the following link: [Plastic Surgeon Baltimore MD](#).

More information can be found on the clinic?s website, and interested parties may direct any further inquiries regarding the practice, their procedures or their COVID-19 response to Dr. Jeffrey Schreiber. Social media users are also welcome to connect with the Baltimore Plastic and Cosmetic Surgery Center on Facebook, Twitter, Instagram and more.
