

The Painting Pros Resumes Interior Painting Services as Businesses Are Slowly Being Allowed to Reopen

May 20, 2020

May 20, 2020 - PRESSADVANTAGE -

The Painting Pros, based in Los Gatos, California, has announced that they are now resuming their interior painting services as businesses are slowly being allowed to re-open. They point out that it is not exactly a return to "normal operations" even if their painting services for the exterior of houses were not as affected as their interior painting work. They want everyone to know that they have instituted policies and procedures to ensure the safety of their employees and customers in view of the Covid-19 threat. They are also offering remote quotes through Zoom and Facetime as a safety measure.

Cleve Dayton, President of The Painting Pros, says, "We're happy to announce that we're now able to provide our interior painting services once more. With the threat of Covid-19 still present, please note that we have established policies and procedures that will ensure the safety of both our customers and employees."

He continues, "We've been providing expert interior painting services to both residential and commercial customers in the South Bay of California, since 1978. Although we are headquartered in Los Gatos, we also

serve customers in San Jose, Sunnyvale, Los Altos, Santa Clara, Saratoga, Almaden, Monte Sereno, Mountain View, Palo Alto and other surrounding towns.?

The Painting Pros is a licensed general contractor and the company's professionals have the expertise to perform repair and remodeling with the appropriate finishing touches. They are able to provide top quality interior painting because of a number of factors. First of all, they have been in the painting business for more than 40 years. Second, their technicians are highly skilled and trained in the appropriate methods to produce results that will surpass customer expectations. They also have developed an excellent reputation because the company has received many positive reviews on various sites like Yelp, Angie's List, Google, HomeAdvisor, and others. And The Painting Pros has also received the Diamond Certified Award for high quality and customer service.

Meanwhile, aside from interior painting, the services available through The Painting Pros include residential painting, commercial painting, exterior painting, deck refinishing, and drywall repair. The exterior paint of home is of great importance because it greatly increases the value of a home particularly because it provides a great first impression.

Some homeowners may want to do the painting of the house exterior themselves but this is not really a good idea especially for people who don't have the expertise and are not familiar with the appropriate materials. By getting the services of a professional painter, the homeowner is able to avoid a lot of potential problems and can be assured of excellent results. The Painting Pros can assure excellent results because they have been providing painting services for more than 40 years. And they're not a one-person operation but a team of painting professionals.

Another important service that they can provide is deck refinishing. Just like with the exterior paint, a deck is an external feature of a home that can offer a great impression to anyone visiting the home. However, this can turn to a negative impression if the deck is worn and dingy and the paint is peeling off or the stain is fading. This is where the deck refinishing services from The Painting Pros can be useful. With a great looking deck, the family can enjoy relaxing on the deck, having their meal or drinking coffee.

The deck refinishing service from The Painting Pros consists of a number of steps. First, they will inspect the whole deck, including railings, posts, stairs, and other wood structures on it, taking note of any warped, damaged, or rotting wood, as well as the presence of mold or mildew. The second step is to replace or repair any damaged or rotting wood parts. Then they will clean the entire deck, after which they will sand and strip any existing stain. The final step is to apply the paint or stain preferred by the customer.

Those who are interested in services provided by The Painting Pros may want to check out their website, or contact them on the phone or through email. The website has an online form where people can request for a free estimate.
