

Dumpster Rental Provider Shows Customers How To Engage Their Services During The Pandemic

June 05, 2020

June 05, 2020 - PRESSADVANTAGE -

Austin, Texas based Rubbish Inc Dumpster Rental is reaching out to the community to share how they can safely rent a dumpster during the COVID-19 pandemic.

All waste removal companies have been determined essential businesses in the US, and they have been ordered to continue their operations after adopting certain precautionary measures to prevent the spread of the disease. As one of these companies, Rubbish Inc. Dumpster Rental has adopted all safety measures necessary to guarantee the safety of their clients, their workers and the community at large. This enables their clients to rely on the company at the top of the local industry to safely dispose of their unwanted materials.

Jd. Rebold, a representative of Rubbish Inc Dumpster Rental, states, "While most projects have come to a halt due to the current pandemic spreading across the globe, we want our community to know that we'll continue looking after them to ensure that they can carry on with as few inconveniences as possible. Whether they are remodeling their house, cleaning up their backyard or just throwing out unwanted items from around the house, we'll be here to help dispose of them properly through our junk removal services. Now that we are all spending more time at home and trying to make the most out of our free time, we are here to see that nothing is preventing you from completing your house projects."

Rebold states that the company will be adhering to CDC guidelines to guarantee the safety of everyone involved while they drop off and pick up dumpsters. This means that all members of the crew assigned to the job will wear masks, gloves and other protective gear as well as practice social distancing and avoid direct contact with the client in order to avoid putting their health at risk. Junk removal projects may need additional planning, depending on the details, as these tasks require far more coordination than a regular dumpster rental job. Simpler jobs, however, could be carried out without meeting in person, as the company notes that all their clients need is to specify the type of material to be removed as well as its location within the property.

?All in all, our clients can expect the same quality of work and experience that is similar to the norm?except they will be getting a smile and a wave instead of the regular hand shake,? says Rebold. He adds that, for payments, clients can choose to pay online to avoid direct contact with their team, though all of their employees will be thoroughly sanitized and protected.

Rubbish Inc Dumpster Rental - South is one of the most distinguished junk removal companies in Austin. Their simple and transparent pricing, along with their outstanding customer service, has made them the preferred option for both contractors and local residents. The company takes great pride in this reputation, as they have always prioritized giving their clients the best possible experience, along with the best services available.

This reputation has led them to be one of the best-rated companies in the area on the Google platform where they enjoy a near-perfect review rating of 4.9 Stars. One of their most recent comments, written by Brian Anderson, says, ?Outstanding service and fair pricing. That sums up my feelings about Rubbish Inc. I like it when I visit a project only once. I called and spoke to a live person, got a fair quote (I had already called around so I knew when I found good pricing) Scheduled my delivery and pick up time, and I was done. I did not have to call to find out where they were for delivery or pick up or to question pricing. Plus the dumpster looked nice, it was not a beat up rusted can. The driver was a great guy and put the dumpster exactly where I wanted it and took it away without hurting my property."

The company?s website offers more details on Rubbish Inc. Dumpster Rental and their services. Interested parties may reach out to Jd Rebold to follow up on any inquiries as well. Additionally they may connect with Rubbish Inc on Facebook and any of their other social media platforms.
