Security Now USA Reassures Strong Defense Against Looting

May 22, 2020

May 22, 2020 -

Apart from the health threat, looting is also among the main concerns of the people of the United States during this pandemic. Residents are anxious about the possible increase of looting cases as most areas in the US remain on lockdown, a recent survey says.

Security Now USA, the Best General Security Services in the USA, says they are ready to put an end to this dilemma. The company assures that through its security services, there will be no more looting on the areas they serve. They will provide police quality security services 24 hours a day for residential and commercial customers.

While everyone is at home, there is still no assurance that burglars will not strike. That is why security workers and guards remain on the frontline, too. Security Now USA guards are all trained for challenging situations like the lockdown.

All guards of commercial security firms have backgrounds in law enforcement or the military, and knowledgeable of the law, too. They are also licensed by the Ohio Department Of Public Safety Private

Investigation Security Guard Section to provide armed or unarmed services. "We firmly believe that the most valuable resource we offer is our team members," states Security Now USA.

Headquartered in Sherman, California, the Best Commercial Security Service Provider in the USA also continues to serve all locations in the US. As a response during this pandemic, the company also maintains its online booking services. "Our booking is available online all the time so there are no hold times or hassling with automated systems. Schedule and book your guard with ease using our system," the company states.

The security firm also highlights that their professionalism and experience is what separates them from the competition. "We are fully insured, privately owned, and maintain worker's compensation and unemployment policies," states Security Now USA.

The security giant has also rolled out a mobile app exclusively for its clients. Through the app, their clients can monitor and communicate with their security guard in real-time. With this feature, guards on duty can easily report the real-time situation and provide immediate action. The guard's current location and history are also marked on a map on the mobile app, allowing clients to track patrolled areas conveniently.

Security Now USA serves varied customers. They provide guards for banks, movie sets, hotels, construction sites, and events. They also offer specialized security services such as dispensary security, maritime security, general security, temporary security guards, and fire watch services. The company also provides expert advice on intelligence security. For a complete list of their services, visit the official website of Security Now USA at https://www.securitynowusa.net/.

To know more about the Best General Security Service Provider in the USA, visit their office at 15260 Ventura Boulevard Suite 1200 in Sherman, California, or call 1-888-239-7621.
