The Funeral Program Site, based in McKinney, Texas, has announced that they have recently launched glass memorial photo flower vases, personalized cancer memorial ribbons, and a personalized funeral program. The custom funeral program is specifically designed for a loved one, where their designer creates a funeral program to honor a particular loved one?s memory. The creation of these customized funeral programs can be done fast with first proof delivered to the customer via email in just a few hours. Each individualized funeral program is provided with unique results and designed to highlight the loved one?s life.

Carole Galassi, the Creative Director at The Funeral Program Site, says, ?Our custom funeral program service is designed to assist you during your time of need. We completely typeset your entire program for you and insert all of your photos, resulting in a professional presentation. A perfect option if you are short on time or need to tend to other details of the funeral service. We're here to help in as much or as little as you need us.?

She continues, ?First choose a design and layout from our DIY templates category you would like for your

funeral program. Then call or order it with the customization service, we will get to work as soon as we receive your order.?

The professional typesetting service they provide for the customized funeral program includes a number of services. These include: the entry of all necessary information and professional typesetting into the template design and layout chosen by the customer; enhancement of photos that are too light or too dark; color correction of any photos that look unnatural; creation of a transparent photo back drop if desired by the customer; additional pages if preferred; creation of photo collages if requested by the customer; provision of three PDF proofs with instant revisions; fast, hassle-free and efficient service; and submission of the completed program to the customer in a print-ready document.

Meanwhile, the cancer ribbons are worn in the signature criss cross presentation on the lapel to indicate support and increase awareness about specific diseases. These ribbons may also be worn at a funeral or memorial service, particularly if the death was due to a specific cancer or disease. Customers may choose from The Funeral Program Site?s collection of personalized double-faced satin ribbons designed to increase awareness about a particular cancer, worthy cause, disease, or organization. Customers may also create their own ribbon design for a particular cause or memory.

Also available are personalized flower vases. These memorial vases are made of glass and provided with artwork designed by The Funeral Program Site. They imprint the artwork, including a special photo of the loved one, directly onto the glass using a special process to create a durable and long-lasting flower vase that is also water resistant.
