

Rockwell Trading Shares Markus Heitkoetter's Daily Trading Routine Online

June 04, 2020

June 04, 2020 - PRESSADVANTAGE -

Austin, Texas based Rockwell Trading is pleased to announce that they are currently hosting a series of live streams on YouTube that share exclusive insights on Markus Heitkoetter's stock market trading secrets and techniques.

Markus Heitkoetter from Rockwell Trading offers a series of online trading sessions on Youtube sharing a typical Daily Trading Routine with viewers. In line with this, a 90-minute exclusive session covered Heitkoetter's daily morning routine, usage of the PowerX Optimizer, what to look for while trading and how to pick the right trades.

Heitkoetter has been sharing trading secrets through Coffee with Markus in YouTube. His mission is to help people achieve financial independence by educating them about the art and science of stock market trading. In fact, right after the May 30th session, Heitkoetter facilitated a live trading session on June 1, 2020. This gave the participants the chance to see Heitkoetter live in action where they observed and were welcomed to copy his best practices.

Meanwhile, Rockwell Trading states that those who would like to get into trading need to know three important factors. These include what stocks to trade, when to enter and when to exit regardless of whether it is with a loss or with a profit. In order to know and efficiently track the numbers while trading, a good trading tool like PowerX Optimizer is necessary. Rockwell Trading explains that the PowerX Optimizer is a charting program with a built-in scanner that is able to show the user 2-8 stocks that they could possibly trade every day. With the help of the software, Rockwell Trading asserts that those who are new in the world of trading would be able to choose stocks with the highest chances of earning a profit. Furthermore, the company states that the PowerX Optimizer is not only the leading software for trading stocks but also provides option trade setups as well.

Rockwell Trading has also published a book, *The PowerX Strategy*, in the hope that it will help traders look for the best stocks while limiting their risk. The company is pleased to share that a hardback copy of the book is available on Amazon and is now a best seller.

Heitkoetter says, "If you want to find the best stocks and get the most favorable results, you should implement the PowerX Strategy. The PowerX Strategy is easy to follow, and you don't need any experience in finance and economics for you to understand its concepts. You simply need to follow the 3 simple rules built into the system to prevent losing money. Unbeknownst to many, 90% of new traders lose 90% of their accounts in 90 days. However, you can avoid being a part of this statistic with the help of the PowerX Strategy book. I can assure you that you will learn how to easily avoid devastating losses using my disciplined approach and techniques."

Rockwell Trading has received rave reviews of their products as well as the courses they offer. In a 5-Star review found among their Rockwell Trading Reviews, Goria Ives says, "Markus is a wonderful coach. Markus and Mark, his partner, work great together. Their training is excellent, they are honest and right to the point. They will repeat anything that is requested to make sure everyone understands, no one is left behind. Their weekends are filled with information and excitement. Most of all you know you are walking away having made many friends with the same interest at heart. We want to make a steady safe income and, with their help, it is possible. They have the proven knowledge and they are willing to share it with you. All you need is the method, mindset and to be eager to learn. They are multi-millionaires willing to share their many years of growing techniques working with the different markets."

In another positive review, Paul Harper says, "I'd been searching for a good, honest and quality company to help me learn how to trade for several months. I attended a Rockwell bootcamp a couple of weeks ago and a 3-day live event this past weekend. Markus and his Rockwell team are awesome. Their energy, enthusiasm, professionalism and trading material are second to none, it's as close to getting a degree in trading that you can get. I am so excited and happy to now be part of the Rockwell family and looking forward to a profitable and exciting future thanks to Markus and his team."

Those who are interested in learning more about stock and options trading can find more information on the company's website. Interested parties may also connect with Rockwell Trading via social media to stay connected to what they're looking at in the markets.
