

Roofing Contractors Firm in Calgary Gets New Five-Star Review

June 03, 2020

June 03, 2020 - PRESSADVANTAGE -

No Payne Roofing, Inc., a roofing contractor firm based in Calgary, AB, Canada, has announced with pride that they have recently received another five-star review from one of their customers. The customer had a small roofing repair project that was not being accepted by other roofing contractors and was very pleased that it was done the following day. The company is a provider of affordable roofing services in Calgary from roof repairs to roof replacement to roof installation. They also offer other related services, such as gutter cleaning services, siding repair, chimney repair, and skylight installation. They are made up of a team of Calgary roofing experts who have a wide range of expertise and experience.

In the latest five-star review, Geoff M. says, "Had a small repair job that Payne Roofing accepted when others wouldn't. Fixed it the next day and gave me an assessment of hail damage along with some good advice on claims. Very happy with service."

The roofing contractor company is not new to receiving highly-positive reviews. On their Google Maps page, they have 80 reviews and their overall rating is 5.0, which implies that practically all of those reviews are five-star reviews.

Mike Payne, the owner of No Payne Roofing, Inc., has this to say about the latest glowing No Payne Roofing customer review, "We're always ready to do any roofing job, big or small. And we're always glad to receive such kind words from the customers. Rest assured that we will continue to offer the best service that we can provide or even make some improvements whenever possible."

Their roofing services consist of inspections, maintenance, new roof installation, repairs, or replacement. Roofing inspections are performed to detect potential roofing problems that may need to be resolved as early as possible in order to ensure that these will not worsen and become serious issues.

They will also create personalized preventive maintenance programs for a particular customer. This is designed to prolong the roof's lifespan and optimize its performance. Roofing repairs may be suddenly needed, for instance, when a storm damages the roof. Such repair projects cannot be postponed because a damaged roof can let water in, which could cause further damage to the home and the residents' personal belongings. And for those whose roofs have finally reached the end of their lifespan, roof replacement can be provided.

They can work with asphalt shingles, metal shingles, rubber shingles, and flat roofing. And they use roofing materials from the top global manufacturers, such as Owens Corning, IKO, GAF, Malarkey Roofing Products, CertainTeed, Euroshield, and BoraSteel Stone Coated Roofing. They want to point out that there are a number of indications that the roof may already need to be replaced. These include recurring leakage, large holes, sagging roof, too much shingle debris, unstable temperature inside the home or building, aging roof, missing or damaged shingles, exposure to extremely harsh weather conditions, and eavestrough repairs or replacement that may be needed because of the material's brittle condition.

They may also recommend and perform gutter cleaning services for a clogged gutter. Indications of a clogged gutter include ponded water, misaligned downspouts, and rusting gutter insides.

No Payne Roofing may also provide siding repair, which has to be done in a timely manner, or else the integrity of the home may be compromised. Siding repair is essential because it can boost energy efficiency; address minor issues that will allow the homeowner to avoid early replacement; ability to maintain the home's curb appeal; prevention of pests and water from getting inside the home through cracks; and preservation of the value of the home.

Those who are in need of roofing contractors in Calgary may want to check out the website of No Payne Roofing, Inc. or contact them on the phone or through email. They are open from 7:00 am to 9:00 pm from

Monday to Friday, and from 9:30 am to 5:00 pm on Sundays. However, people should contact them first because the hours and services may differ due to the COVID-19 pandemic.
