Hamilton Roofing Service Provider Receives Another Highly-Positive Review

June 03, 2020

June 03, 2020 -

Straight Arrow Roofing, a roofing service provider for Hamilton, ON, Canada, and neighbouring areas, has announced with pride they have recently received another highly-positive review from one of their customers. They provided an emergency roofing service for Joyce O. and she noted that the workmanship was really excellent because her roof didn?t lose a single shingle while her neighbours? shingles were scattered all over the place after a storm hit their neighbourhood. Straight Arrow Roofing is already known as a reliable residential roofing company in Hamilton and nearby areas. Their roofing services are not just precise and reliable but they also get the job done fast. Another factor that they believe makes them stand out among the crowd is their honesty policy, ensuring that the free roof repair estimate they provide to potential customers is reliable.

In the recent glowing customer review, Joyce O. said, ?Joel and his crew are professional and friendly. They did an amazing job on our roof which was [an] emergency. Joel cares about his customers and [their] workmanship. We got our roof done last summer and with the horrible wind/tornado storm we had last week we didn't lose a single shingle but our neighbours' shingles were all over our backyard. Thank you, Joel. I highly recommend Straight Arrow Roofing.?

Joel Guerra, the owner of the roofing company, responded to the highly-positive Straight Arrow Roofing customer review by saying, ?While we often receive five star reviews from our customers, we?re always elated to receive such glowing customer feedback. What Joyce noticed about her roof withstanding the forces of the storm such that no shingles were removed shows that the materials and methods that we used are excellent and precisely what are needed to ensure long-lasting roofs. Thus, we can continue providing our services with peace of mind that the roofs we provide can really withstand extreme weather conditions. We would like to thank our customers like Joyce who took the time to provide us with their valuable feedback.?

Straight Arrow Roofing is a full-service roofing company offering residential roofing services in Brantford, Hamilton, and neighbouring areas. They provide roof leak repairs, roof inspections, siding installation and repairs, gutter installation and repair, soffits and fascias, and flat roofing. They want homeowners and other property owners to know that they should not wait until they find their roof is leaking before requesting for roof repair or maintenance.

There are a number of signs that the roof needs replacement. First of all, roofs usually last for 20 to 25 years. Thus, if the roof is already 20 to 25 years old, it is a good idea to have it inspected for possible replacement. It should also be noted that the actual lifespan of the roof may vary due to a number of factors, such as if the roof was installed over a preexisting roof or if the roof is well-ventilated. If the roof was installed on top of an existing roof and it is more than 20 years old, there is a strong chance that it is due for replacement.

Another important sign is roof damage. As roofs age, they tend to have more damages because they become weaker with age. It is also a good idea to check the valleys because this is where snow and rain flow down to the gutters. Roof leaks may develop in these valleys.

Another indicator that a roof may already need replacement is that the shingles are starting to fold and twist or there may be a number of missing shingles, which are an indicator that the roof is starting to fail. Other indicators are chimney flashings filled with tar or roof cement and the gutters are filled with shingle granules.

Homeowners and other property owners who are looking for Hamilton roofing services may want to visit the Straight Arrow Roofing website or contact them on the telephone or through email. They are open from 9:00 am to 6:00 pm, from Monday to Sunday. However, people should contact them first before visiting their office because their hours and services may vary because of the COVID-19 situation.
