Andover Dentist Offers Private General And Cosmetic Dentistry In Hampshire

May 29, 2020

May 29, 2020 -

Andover, Hampshire, residents in need of a dentist need not look any further than Dental Concepts. The Andover dental clinic offers only private dentistry, and one can find both general and cosmetic dental treatments (such as Invisalign teeth straightening, dental implants, dental veneers and smile makeovers). Anyone in the area looking to have their teeth fixed can find exactly the service they are looking for at Dental Concepts. The dental clinic?s site can be found at http://www.dental-concepts.com/.

Dental Concepts strives to provide the best dental service possible to the people of Andover. The clinic has a caring team of professionals who work together to produce the best results. Their support team is highly trained, and they work tirelessly to make each patient?s journey as comfortable as possible. Convenience is a major concern for many patients, and Dental Concepts is one of the most convenient dental offices in the area, thanks to the fact that all their facilities are under the same roof. They even have a large car park located outside the practice. All registered patients are eligible to receive NHS (at their Whitchurch clinic) and private dental treatment along with friendly opening timings.

The Andover dental clinic offers all kinds of procedures, including general dentistry. ?General dentistry is the overall maintenance of your oral hygiene and the health of your teeth,? the clinic says. ?Dental Concepts have five highly competent general dentists who cater to the dental needs of our clients regardless of age. We are going to help you customise your dental hygiene plan according to your needs and desires. Your general dentist will diagnose your dental status, facilitate treatments and closely monitor your dental health status to prevent further damage, pains and other disease.?

The clinic also offers a wide range of cosmetic procedures, teeth whitening being among the most common. Teeth are stained by food, drink and smoking, leading to the loss of their natural white brilliance. Teeth whitening is a simple, non-invasive solution to the problem of stained teeth. Dental Concepts helps dozens of patients restore the brilliance of their smiles every year through teeth whitening, and the results are often

amazing to behold.

?More than 100,000 people get teeth whitening treatment in the UK every year,? says Dental Concepts. ?There are a number of ways to whiten teeth. You?ve probably seen tons of over-the-counter whitening products at your local medical store, from whitening toothpastes to rinses to whitening strips and other types of DIY at-home treatments. Teeth whitening carried out in beauty salons by untrained staff or staff without dental qualifications puts your oral health at risk and is also illegal. The single most effective and safe way to whiten teeth is with a professional teeth whitening session in your dentist?s practice.? Visit http://www.youtube.com/watch?v=uZITIyTIi9s for more information.

Many of the dental clinic?s patients have left great reviews of Dental Concepts online. One patient, Carolyn, says, ?Wonderful experience. I had to have a tooth extraction. The receptionist was wonderfully welcoming and made you feel at home. In fact, she made everybody feel at home. The surgeon and the surgeon assistant did their job wonderfully. I'm so impressed, I couldn't ask for any better. I'm really thankful for being able to attend that dental practice with such lovely people, thank you.?

?What a wonderful place,? says another review from a patient named Ferlon. ?The receptionist was incredibly funny, which calmed my nerves down, and the dental surgeon and her assistant were very friendly. They explained everything that was going to happen, which again helped to calm my nerves down. The root extraction was performed at a lovely leisurely pace, which again was very calming. Within minutes of my gum going numb, I was told that it was all over! I felt nothing! I felt no pain and definitely didn't experience any tugging. If only my local dentist practice was like this. A big thank you to the three amazing ladies that made my visit an enjoyable one.?
