

Escamilla Law Group Offers Chandler Car Accident Attorney Services

June 17, 2020

June 17, 2020 - PRESSADVANTAGE -

The Phoenix, Arizona office of Escamilla Law Group, PLLC has announced that they provide auto accident legal services for residents of Chandler, Arizona, and neighboring areas. They want to point out that over 53,000 victims of the more than 100,000 motor vehicle accidents that occur throughout the state of Arizona often have to deal with a lot of pain and suffering as a result of the negligence or recklessness of another person. They are usually approached by the insurance companies of those deemed to be at-fault and provided with minimum settlements for the damages and injuries they have suffered. The law firm wants car accident victims to know that instead of accepting those offers from insurance companies, it is advisable for them to contact a car accident attorney as early as possible.

Sergio Escamilla, a founding member and managing principal at Escamilla Law Group, says, "Our auto accident attorneys in Chandler are dedicated to helping accident victims get the justice and compensation they deserve for their accidents. Our knowledgeable and aggressive team at Escamilla Law Group, PLLC has decades of experience helping accident victims with their legal claims."

He continues, "When victims come to us, we begin by reviewing the details surrounding their claims. We then begin documenting the accident and collecting evidence from the scene, medical professionals, law enforcement, and various other sources to ensure we have a strong case. If necessary, we will hire expert witnesses who can re-create the scene of the accident to show critical details that help prove you are the victim to another person's negligent acts."

The auto accident attorney at Escamilla Law Group is well aware that motor vehicle accidents can have a devastating impact on the victim's life and the effect may even last for the remainder of the victim's life. Not only are the car accident victims left to deal with the substantial physical and emotional pain and suffering but they and their families will have to face the financial consequences of medical bills, loss of job, lost wages while recovering, and more. Thus, the car accident attorneys at the firm will always focus on getting the

highest possible amount of compensation to cover the damages that have resulted from the accident.

The team of lawyers at Escamilla Law Group is dedicated to assisting the car accident victims in holding those at-fault accountable for the incident. They will assist victims throughout the whole legal process to make sure that their claims are always filed on time. The specific services that they provide to accident victims include: the investigation of the accident; the assessment of the real costs of the accident by evaluating documents, medical reports, and other information; regular communication with victims to ensure that they are always aware of what is happening with their claim; processing of paperwork to make sure that everything is filed promptly and accurately; preparation of settlements or taking the case to trial; and provision of assistance to victims on getting their cars replaced or repaired.

There are various kinds of damages in a personal injury claim where the lawyers from Escamilla Law Group can help with. These include medical bills; pain and suffering; property damage; lost wages; lost earning potential; and punitive damages. The lawyers will examine the documents from medical professionals to determine how much compensation they can ask for the victim.

Also important is the amount of pain and suffering that the victim had to go through. Thus, the lawyers will also help in arguing in court to allow the victims to get the compensation that they deserve to help alleviate some of the physical and mental consequences of the accident.

And because victims are often forced to take some time off from work for consultation with a doctor, surgery, or therapy, the lawyers will also strive to help them get full and fair compensation for the amount of wages that were lost.

Those who are interested in getting the services of car accident lawyers in Chandler and nearby areas may want to check out the Escamilla Law Group website, or contact them on the telephone, or through email.
