

SLFORCE Safe Personal Alarm Takes #1 Spot On Amazon

June 01, 2020

June 01, 2020 - PRESSADVANTAGE -

SLFORCE Ltd is delighted to share that their safety-focused SLFORCE Personal Alarm has become the best selling product in its category on Amazon. The company attributes their stellar sales to the alarm's incredible utility, portability and the irreplaceable sense of security and safety it offers. Learn more about the product and the company's aims on their Amazon page, which can be found at the following link: <https://www.amazon.com/dp/B07BV7BRGT>.

SLFORCE understands that millions, if not billions, around the world have both a need and preference for being outdoors for hours at a time. Whether an individual seeks to head outside on an errand, take in some fresh air, get some exercise on a quick jog or simply take a meditative walk around the neighborhood, they will likely always be concerned for their own safety. While some of these concerns will revolve around avoiding vehicles while crossing streets and so on, many will inevitably feel that their safety is threatened by other people. In response, SLFORCE designed a Personal Alarm that aims to combat any threat via the simple yet highly effective measure of alerting nearby pedestrians and residents of a potential attack.

As the company states in their product description, "With SLFORCE siren song alarm, you can rest assured

knowing that your loved ones are protected. A great choice for kids, teenagers, women, elderly, students, joggers, etc.? This is due to the fact that an alarm requires virtually no special preparation to use effectively?all a user has to do is engage the alarm and that will likely be enough to deter most would-be attackers. As the company explains, ?Should someone wish to attack you or approach you with any malicious intent, the last thing they will want to do is draw attention to themselves. Our Personal Alarm can be used to do the opposite of what they want?it emits a screaming siren of 130 decibels that is sure to catch the attention of anyone in the vicinity.?

They continue, ?The noise it makes is comparable to a military jet aircraft during take-off, so you will likely surprise an attacker and buy yourself time to flee to safety at the very least. Furthermore, anyone else in your vicinity will probably turn your way, alerted by the sound to an emergency in progress. This will help deter any attacker from pursuing you.? Given that a user will not have much time to rummage through their pockets or purses for the alarm in order to use it once they feel threatened, SLFORCE has carefully designed it to easily attach to bags, keychains, purses and so on for easy and instantaneous access.

Many attacks are also known to happen at night, which is unfortunate for those who prefer to be out past sundown. Some people prefer to get their exercise once the day?s traffic and noise has died down, for instance, but are put off from doing so due to the risks posed by night-time excursions. Fortunately, the SLFORCE Personal Alarm comes with a built-in mini LED flashlight that can illuminate areas that may not be near street lighting and so on. Similarly, those who are heading home from late-night work commitments or family events will no longer have to resort to holding their expensive smartphones out to illuminate their way.

These features make the SLFORCE Personal Alarm both a great item to own as well as gift to a lucky friend or family member. Each alarm comes wrapped in a free D-Ring carabiner clip, making it a great accessory for any person?or any event they may care to attend. SLFORCE has so much confidence in their product, in fact, that they offer a risk-free 100% money back guarantee. Their professional customer service team will endeavor to ensure that each customer is satisfied with their purchase?and each purchase comes with a 6-month guarantee to ensure satisfaction, no questions asked.

SLFORCE?s pride in their product is reflected in their glowing customer reviews. One 5-Star Amazon review says, for instance, that, ?I tested these with earplugs in, and the noise they put out was ear-splitting. I have not had to use these in an emergency, but I feel better about having a level of protection. If anyone tries to steal my purse, they will also lose their hearing.? Another review states that the alarm offers a, ?Great price for a simple device that does not require any special training or incur any fear for those afraid of wielding a knife or gun. This is great for teenagers, women and anyone who wants something that can effectively deter an attack. I bought several and equipped the women in my family as well as my business. Well worth it!?

Those interested are welcome to reach out to the company in order to follow up on any further inquiries. More information regarding the SLFORCE Personal Alarm can be found on their website as well.
