

Old World Brick Paving Provides Paver Brick Services in Wilmette

June 01, 2020

June 01, 2020 - PRESSADVANTAGE -

Old World Brick Paving, a company based in River Grove, Illinois, has announced that they are offering paver brick installation and repair services in Wilmette and neighboring areas. They are a professional brick paving contractor and they have been offering such services since 1993. The paver installers that make up their team have been properly vetted to ensure that they are experienced and certified. Since the company was founded in 1993, they have focused only on paver brick installation. And they have assured that all of their workers or subcontractors have been provided with the requisite workman's comp insurance. Thus, homeowners and other property owners are assured that any paver project they pursue will be of high quality and long-lasting.

Frank Calistro, owner of Old World Brick Paving, says, "If you are looking for a professional paver in Wilmette and nearby areas, make Old World Brick Paving your choice. Our workmanship and customer service has earned us a lot of referrals. Our team is highly trained and experienced in handling different paver installations. We can help with brick paver patios, brick paver driveways, permeable pavers, cleaning and sealing of pavers, and paver repair."

For homeowners who want to entertain guests outdoors, a brick paver patio can offer the appropriate entertainment space. And for whatever purpose, patios can be made more attractive and have an aesthetic design that blends well with the environment through the use of brick pavers. The company's experienced patio paver installers can help homeowners achieve all of that and more. They will use only the best available materials and factory certified teams to make sure the brick paver patio will be attractive and last for a long time. Their hardscape design team can also help homeowners come up with an appropriate design for their specific home and yard, and they can visualize what the patio will look like through computer 3D/2D graphics.

The team from Old World Brick Paving can also install a brick paver driveway, which can greatly enhance the curb appeal and value of the home because of its attractive entrance, driveway, and walkways. Their expert paver driveway contractors are well experienced in providing the best brick paver driveway installations. Just like with the paver brick patios, they will use 100 percent Virgin Limestone base material and put a thicker base than other contractors to ensure that the driveway will have a long lifespan.

Meanwhile, in order to avoid water damaging the paver brick patio or paver brick driveway, permeable pavers can be installed. These will allow the water to reach the soil underneath the pavers without damaging the surface of the brick pavers. This is designed to protect the patio, driveway, and walkway not just from water but also from heat, salt, and freezing.

Aside from the installation of brick pavers, the experienced team at Old World Brick Paving can also provide cleaning services. Over time, some of the paver bricks will develop stains that are difficult to clean. For such stubborn stains, they have specialized equipment and high-quality products for cleaning the paver bricks and make them look like new again. They can also provide sealing services using the best equipment and products to ensure that the paver is provided with an attractive finish.

For those who have an aging brick paver installation or a new one that was not properly installed, the team from Old World Brick Paving can provide brick paver repair services. They can repair the pavers so that the paver patio, walkway, or driveway will look like new again. They can also repair paver walls and steps, and explain to the homeowner why the problem had occurred.

They can also design and install outdoor kitchens and pergolas using paver bricks, providing homes with a unique and attractive appearance, and substantially boosting its curb appeal and value.

Homeowners and other property owners who are interested in paver brick services in Wilmette and nearby

areas may want to check out the Old World Brick Paving website, or contact them on the telephone, or through email.
