School Backpack Continues To Receive Rave Reviews On Amazon

August 28, 2015

August 28, 2015 -

Promises Kept Products, a Reston, Virginia based company, has announced that its Chesapeake Backpack has continued to receive astounding reviews from customers. Clay Dewey, CEO and founder of the company, recently commented on the backpack's popularity. He states, "It continues to impress everyone who buys it, and our customers are expressing their contentment all over our Chesapeake listing page on Amazon."

One Amazon customer also expressed his views on the Chesapeake Backpack. He said, "The best pack back I've ever owned. Lots of pockets and compartments, a sporty red color and great padding. I bought a wonderful hat from Promises Kept Products a few months ago, which is also terrific. Keep it up!! Quality is excellent."

The lightweight backpack weighs only 1.3 pounds, but can carry up to 44 pounds. It features a breathable design, and is waterproof. The material and weightlessness make it the most comfortable backpack for students, as well as hikers, campers, and others.

It has a laptop compartment that can handle a computer up to 17 inches, and various other pockets such as the two side mesh pockets that are perfect for earphones or straws. A bottom pocket holds a protective rain cover that is included with the backpack. It also features a reflective strip for night visibility, a safety whistle, and a chest strap to ensure the tightest, yet most comfortable, fit possible.

Of the multitude of reviews that the backpack has received, none have been below five stars. Customers love the lightweight and durable design, the added benefits of safety features, and the fact that it offers a number of places for organization. It has quickly become the most popular back to school backpack on the Amazon marketplace, but students aren't the only ones who love it.

Campers, hikers, and general travelers find it beneficial as well. Many reviews are from outdoorsmen who like the lightweight design because it doesn't bog them down when they're moving about, and others who feel that the safety features are the best ever provided in a backpack.

The backpack, along with the long list of customer reviews, can be seen on the Chesapeake page on Amazon.com.
