June 08, 2020

June 08, 2020 -
Clean Group, a full-service cleaning company based in Sydney, New South Wales, is pleased to offer their professional expertise to local clients. Learn more at the following link: Sydney Gym Cleaning.

Suji Siv, owner and CEO of the cleaning company, says, ?It is true that health is wealth but we only fully understand its real meaning now because of the COVID-19 pandemic. As we try to cope up with the new normal, many of us need to go to the gym in order to keep fit and stay healthy. We are starting to understand the importance of becoming more health-conscious that, even with our very busy schedules, we still find time to go to the gym and exercise. However, many gym operators seem not to prioritize cleanliness within their premises, which is why it is possible that instead of becoming healthier, gym goers can get sick from the viruses and bacteria present on the benches, gym equipment and even inside the gym?s shower rooms and other common areas.?

In line with this, Siv points out that gym owners must always be reminded of the importance of keeping their gyms clean and tidy. Gym cleaning is not an easy task either, because gyms are usually stacked with rows of exercise machines that are difficult to clean, especially given the fact they are very heavy. Locker and shower

areas as well as common toilets are filled with stuffy air and smells of precipitation from gym goers as well, and such odours are often quite difficult to eliminate. These are only some of the reasons why Siv recommends hiring a professional cleaning company like the Clean Group, which has years of experience in cleaning gym facilities and equipment.

As noted on the company?s website, Clean Group only uses the best cleaning agents and employs experienced technicians and staff to offer the finest gym cleaning Sydney residents can rely on. Siv says, ?At Clean Group, we take each cleaning task very seriously. We have hired some of the most experienced, trustworthy and reliable gym cleaners with vast knowledge on how to fully clean a facility and properly handle all the equipment in it. We also use high-tech cleaning equipment and eco-friendly materials and chemicals to clean the dirt and grime within your gym premises. Rest assured that our cleaning agents are specifically made to ensure the safest environment possible, and our cleaning technique will leave the whole gym dry within two short hours.?

Clean Group is pleased to offer a wide range of professional subservices under the gym cleaning category. These include the polishing and cleaning of exercising machines, which involves removing all the grime and prints off of their surfaces. The company also offers vacuuming and dry cleaning, and they can wash carpets as well as shower curtains. Meanwhile, in order to eliminate the stuffy air and smell of perspiration inside the gym, the company utilizes special equipment that clears the air. This leaves the gym?s interior atmosphere fresh, hygienic and odorless. Furthermore, the company can wash and polish gym windows, deep-clean gym toilets and remove soap residue in shower areas in order to prevent drain clogging.

As noted on the company?s website, Clean Group is a duly licensed and insured cleaning company based in Sydney whose mission is to provide clients with the highest standard of cleaning from a team of highly experienced cleaners who utilizes state-of-the-art technology. The company is made up of a team of 50+ skilled and expert cleaning professionals, each of whom are experienced in cleaning both commercial and residential properties, including offices, warehouses, malls, hospitals, childcare centres and more. The company also asserts that they train their cleaners to follow a safe and toxic-free cleaning process and use only high-quality, eco-friendly products to ensure the health of their customers.

Siv further states that the company remains open despite the COVID-19 pandemic and, in fact, is a certified coronavirus cleaning company. He explains that Clean Group has assembled a dedicated team of COVID-19 cleaners who have been trained to provide a special cleaning and sanitisation process that eradicates common germs, bacteria and coronaviruses. ?We are pleased to offer complete disinfection and sanitisation of your property, including all areas and surfaces from floors, doors, kitchens, bathrooms and more to ensure that you stay safe against the outbreak,? he says.

Complete details can be found on the company?s website. Alternatively, those searching for professional gym cleaners in Sydney may connect with Clean Group via social media to learn more about their latest news and important announcements. Learn more at the following link: Gym Cleaners Sydney.
