

SLFORCE LTD Shares Glowing Video Review Of Its Safe Personal Alarms For Women

June 08, 2020

June 08, 2020 - PRESSADVANTAGE -

SLFORCE LTD is pleased to announce that they recently received a glowing video review from a satisfied user of the SLFORCE Personal Alarm Siren Song. Given the company's dedication to their customers' safety, this video is part of an equation that represents how successful the company's mission has been since the product's launch.

In the video review that can be found at <https://www.amazon.com/gp/customer-reviews/RQZ2CPDKK130X/>, Leslie A. says, "I purchased this personal alarm to feel safe when I take early morning walks. I also will use it as a security measure when I ride public transportation. The personal alarm is well made and has an LED flashlight so it can be used at night. It is very easy to use. You can attach it to your handbag, key chain, bike or wear it around your wrist. All you do is pull on the black tab to sound the alarm. What I like about this product is that I feel more secure when I am alone."

As noted on the company's Amazon store, the SLFORCE Personal Alarm Siren Song is a portable personal alarm device designed to make vulnerable people feel more secure at all times. It comes in the form of a keychain with a built-in LED light that can be used by kids, women and the elderly during emergency

situations. Shahar, a company spokesperson, explains that SLFORCE places a heavy priority on the welfare and safety of families, so they decided to create a portable alarm that will help keep family members safe from creeps and criminals.

Shahar says, "An ideal world would be one where we can do whatever and go anywhere we want without being at risk or being in danger. Sadly, we live in a world where we have to be extra careful so that we do not end up getting hurt. We have developed this keychain because we want to ensure the safety of vulnerable people, especially women, when they go out alone at night. We are glad to hear positive reviews about our product, and it is good to know that women, kids and even the elderly can go out feeling safer and more secure than usual thanks to our personal alarms."

Shahar observes that jogging early in the morning or late at night is not an uncommon practice, and teenagers even stay up late to take a stroll or to go to parties. Unfortunately, these seemingly fun and harmless activities actually pose a threat to their safety because criminals can prey on unsuspecting individuals easier during the night. With the help of the SLFORCE siren song alarm, Shahar states that people can freely go out at night knowing that they are safer and protected.

Meanwhile, SLFORCE asserts that their product requires little to no effort to operate. By simply pulling the hand strap on the keychain, the company states that a screaming siren of 130 dB, which is as loud as a military jet aircraft take-off, will be activated. "The noise will not only give you the first few vital seconds to flee the scene but will also immediately attract the attention of all the people nearby," says Shahar.

In addition to the siren, SLFORCE states that the LED light of the keychain is another safety feature that keeps its user safe. The company explains that criminals and attackers prefer working in the dark in order to avoid being identified, so if the unsuspecting victim has a flashlight when walking alone at night, the criminal will most likely think twice to avoid the risk of being exposed or seen.

Shahar says, "The SLFORCE Personal Alarm Siren Song is the perfect gift idea for your family, friends and loved ones. Every SLFORCE personal alarm is beautifully wrapped and comes with a free D-Ring carabiner clip. Safe and easy to use, our self-defense keychain alarm makes a fantastic present for any occasion."

Furthermore, Shahar points out that SLFORCE cares a great deal about the satisfaction of their customers. It is for this reason that every SLFORCE Personal Alarm Siren Song comes with a 6-month risk free 100% money back guarantee. "If any of our clients do not like the product for any reason at all, we will give back 100% of their money back," he adds.
