RX Fitness Equipment, a fitness store in Thousand Oaks, CA, is proud to announce that it has become an authorized retailer of TRUE Fitness treadmills and other TRUE fitness equipment. The TRUE range of treadmills, ellipticals and exercise bikes can now all be purchased through RX Fitness.

"We are very happy to have become an authorized dealer for TRUE Fitness," says Tim Adams owner of RX Fitness Equipment. "Their products are known to be among the best in the world and they're used in homes and gyms alike. It is fantastic that we are able to play a role in improving the overall health of our customers in this way."

RX Fitness Equipment offers high-end, quality fitness equipment. The company sells everything from small pieces used in physical therapy to fitness equipment designed for large commercial facilities. They want to make sure that they not only sell fitness equipment, but are seen as an inspiration that encourages people to actually use the equipment and achieve greater health.

"We encourage everybody to join us on Facebook," adds owner Tim Adams. "That is an opportunity to be

kept up to date with news about our store and the world of fitness in general. It's also a great place to get motivated about exercise, whether you're just starting out or already taking part in an extensive program. By speaking with others, people can support each other to achieve greater results and, ultimately, improve their health."

TRUE Fitness manufactures high-end residential and commercial exercise equipment for use in homes and commercial gyms. The TRUE CS900 Treadmill, for instance, is the perfect item for any large gym facility. At the same time, it is compact enough to be used in a home gym as well. It has all the features you would expect from a high quality treadmill and then some. The console that comes with the treadmill measures all the important data and even comes with an iPod docking station to provide entertainment for the user. It also comes with TRUE Fitness' Patented Soft System, which means it is orthopedically correct to prevent it from causing injury.
