

Broad River Plumbing Helps Provide Well-Functioning Toilets in SC

June 05, 2020

June 05, 2020 - PRESSADVANTAGE -

Broad River Plumbing, the Best Licensed Plumber in Hilton Head Island, SC, is helping provide well-functioning toilets in South Carolina.

The Hilton Head Island, SC plumbing expert says a well-functioning toilet is necessary for keeping the sanitation in both the home and the office. Toilet installation, however, is a job that is left to professionals.

In line with that, Broad River Plumbing assures top-notch services when it comes to toilet installation in Beaufort, Hilton Head, and Bluffton. "We make sure that our friendly team makes every effort to provide you a high-quality service that exceeds your expectations," the plumbing expert stated.

The plumbing professional also recommends that before starting a toilet installation project, the client should first measure the rough-in. Rough-in plumbing refers to the distance from the wall behind the toilet to the bolt of the toilet. The typical toilet rough-in should be about 10 or 12 inches. The distance is useful in determining the type of toilet that should be installed.

The Best Toilet Installation Service in Hilton Head Island, SC likewise says that toilets also come in various styles. Two-piece toilets involve a bowl and a tank that fastens on top. On the other hand, the one-piece toilet impeccably integrates the tank and the bowl into one unit. It creates a smooth and clean appearance that perfectly fits with a modern or contemporary bathroom. In comparison to the two-piece toilet, the one-piece is easier to clean. This type of toilet is usually used mostly in the current, modern, and eclectic bathroom because of its smooth appearance.

There are also tankless toilets that suit modern, contemporary and eclectic bathroom styles. Another style is the wall-mounted toilet. This type of toilet is also for family members with limited mobility and makes the transfer from wheelchairs and walkers quickly. Besides style, it is also essential to choose a toilet with efficient flushing power, according to Broad River Plumbing.

For toilet installation, Broad River Plumbing is an authority people trust. They have been serving clients in Beaufort, Hilton Head Island, and the Bluffton area for over 15 years. "We want every potential and existing customer to think of us when it comes to their plumbing needs. We want to build long-lasting, trusting, and professional relationships with every customer," they say.

The plumbing service company also caters customers in need of toilet repairs, stoppages or replacement, water leak repairs, bathroom, and kitchen sink repair or replacement, as well as main house sewer stoppages. "We are skilled, hard-working, and service-oriented. At Broad River Plumbing, we will do everything we can to make your plumbing experience as stress-free as possible," the company adds.
