Tripp Brothers Non-Slip Treatments Tells How to Avoid Hospital This Pandemic

June 05, 2020

June 05, 2020 -
Tripp Brothers Non-Slip Treatments, the Best Floor Safety Service in Bluffton, SC says preventing slip and fall accidents can help avoid going to the hospital.

Hospitals are the busiest during this pandemic because of the thousands of cases of the contagious coronavirus or Covid-19, the flooring safety company says. More than ever, hospital beds are much needed by the patients, they added. Aside from limited hospital capacity, there is also a higher risk of contracting the virus at the hospital. For that reason, Tripp Brothers Non-Slip Treatments points out the importance of preventing slip and fall accidents, whether at home or the office.

"Safety is a top priority, both in homes and businesses. Since slips and falls are considered the number one cause of accidents in the US, non-slip flooring is the answer," states Tripp Brothers Non-Slip Treatments.

Slip and fall accidents can happen to anyone, but the kids and the elderly are more prone. Nevertheless, homeowners and commercial businesses can make their homes and offices safer by ensuring safe floors.

To do it, the Bluffton-based floor safety expert uses anti-slip coating chemicals from renowned Sure Step. Sure Step is a long-lasting chemical that creates an invisible, sophisticated tread design into the surface of hard mineral floors. This anti-slip coating is known to increase a surface's friction coefficient by 200-400%, even when wet.

"Every floor and bathtub treated with our Tripp Brothers Non-Slip floor Treatments is guaranteed to have an increased coefficient of friction for at least one to five years. And we back it up with a written guarantee," the company stressed.

Tripp Brothers Non-Slip Treatments provides the Best Anti Slip Floor Solutions in Bluffton, SC. They service different non-slip flooring for all floors, including porcelain non-slip floor tiles, non-slip floor tiles for showers, and non-slip kitchen flooring, and non-slip laminate flooring, among others.

"Our product has been developed and proven for concrete, quarry tile, Spanish tile, ceramic tile, glazed brick, marble, terrazzo, porcelain/enamel, and many other hard mineral surfaces," the company adds.

The non-slip floor treatment service also caters to clients in Okatie and Hilton Head, SC. They offer free and no-obligation quotations for those who need floor safety knowledge. The company is also following the standards adopted by the American Society of Testing and Materials (ASTM).
