June 11, 2020 -
Qik Car Title Loans Main is pleased to offer financial help and associated resources in order to assist people during and after the pandemic. In fact, as noted on the company?s website at https://qikcartitleloans.com, they are able to provide their customers with rapid emergency cash assistance during these trying times.

Henry Jones, a company spokesperson, says, ?COVID-19 has had a major impact not only on people?s health but also on our economy. Many people lost their jobs, and many will suffer from pay cuts. In fact, Governor Gavin Newsom of California has already announced billions in budget cuts in an effort to tackle a $54 billion deficit in the state budget. According to Governor Newsom, prior to the COVID-19 outbreak, there was a $6 billion surplus and a $21 billion reserve. As of May 2020, however, California is already in a $54 billion deficit. Since March 12th, more than 4 million Californians have already filed for unemployment.?

Due to the ongoing COVID-19 pandemic, the quality of life many people currently enjoy is expected to decrease. Many will also struggle with paying debts, finding new jobs and recovering from their business? bankruptcy.

As stated in an article published at https://www.pressadvantage.com/story/36055-qik-car-title-loans-helps-people-overcome-covid-19, Qik Car Title Loans understands the agony of American citizens, especially workers who recently lost their jobs and small business owners who have had to halt their operations. They acknowledge that everyone?s need for fast cash is important, especially during this pandemic, so that they can buy food and supplies, pay for their medical fees or just have extra cash in case of emergency. Jones asserts that those who are currently looking for money to make ends meet can contact Qik Car Title Loans for immediate financial assistance.

According to Qik Car Title Loans, a car title cash advance is a good financial resource for those who are facing difficult financial obligations. This kind of cash advance uses a car title as collateral, which allows car

owners to borrow cash easily as long as they completely own the vehicle. Jones reassures customers that, even though this requires the car to be used as collateral, owners should not worry because they can still keep and drive their car around after receiving the money. In addition, unlike borrowing from banks, car title cash advances do not require applicants to have a stellar credit score in order to qualify. They also do not need to wait for a long period of time to get their applications approved?or wait for even longer to claim the money.

Qik Car Title Loans is aware of how important it is to get immediate help, especially in times of financial emergencies. For this reason, the company ensures that their customers will be able to get their applications approved in as few as 15 minutes and can get their money as fast as the next business day.

Jones explains, ?We are always ready to help. You simply need to follow three easy steps and you can get the cash you need in no time.? Car owners may apply by filling out an application form online or by calling the company?s office hotline. The company?s financial aid experts will soon get in touch with the client and promptly inform them how much cash assistance they qualify for. Next, applicants will be asked to prepare some paperwork, such as a valid ID, a driver?s license, the car title, insurance/registration and proof of income. Once the application is approved, the customer can choose to have the cash deposited in their account or presented in the form of a check. It can also be collected from any Moneygram location in the US.

Qik Car Title Loans is ready to provide financial assistance to those who need money fast in order to meet their needs.
