

Revitalize You MD Provides Hormone Replacement Therapy

June 11, 2020

June 11, 2020 - PRESSADVANTAGE -

Roswell, Georgia based medical center Revitalize You MD is reaching out to the wider community to announce that they are providing Hormone Replacement Therapy. Revitalize You MD provides a number of services, such as IV Therapy, Botox, Weight Loss and Juvederm to Roswell and the surrounding areas.

Rachael Clark, a representative for Revitalize You MD, says, "It is a simple fact of life that, as we age, our body begins to decline. A part of that natural decline is the reduction in the production of many of the chemicals we produce. As we become middle-aged and grow beyond, these drop-offs will more often than not become much more drastic, and the resulting effects become more and more apparent. While this is a natural part of aging, we don't have to live with it. In fact, advancements in medical science have allowed us to tackle these problems and ensure that we remain healthy even in our later years. One such option is Hormone Replacement Therapy, often abbreviated as HRT."

Women often need HRT to fight the symptoms of menopause. Hormonal imbalances in women can start

around their late 30s and develop further as they age. Common symptoms of menopause and hormonal imbalance in women include unexpected and excessive sweating (including night sweats and hot flashes), vaginal dryness/atrophy, decreased muscle mass, reduced libido, foggy memory and so on.

While women are often the recipients of HRT, even men can suffer from the decline in production of hormones. Usually, when men reach an age between 40-55, they begin to experience a drop in their testosterone levels (commonly referred to as Low-T). This physiological phenomenon is not a rare occurrence; in fact, tens of millions of men are affected by this condition. In some cases, men in their mid-to-late 30s can experience this phenomenon, which is referred to as andropause. Andropause can lead to reduced energy/increases fatigue, reduced strength and muscle mass, low sex drive/erectile dysfunction, lack of mental focus and more.

At Revitalize You MD, both men and women can find dedicated Hormone Replacement Therapy programs that will help them combat these symptoms of hormonal imbalance and live a full life. The medical center offers HRT options that are customized to each patient's specific set of circumstances and symptoms. Those who suddenly find themselves experiencing any of the symptoms for menopause or andropause are welcome to get contact the medical center for a free consultation.

Revitalize You MD has established themselves as a reputable provider, as made evident by their reviews. On the center's GMB Listing, Revitalize You MD has a near perfect rating of 4.8 out of 5 Stars. In a recent 5-Star review, Evan D. says, "Rachael and the entire team here are amazing. They take time to listen to all questions and concerns. They have even answered questions of mine after hours and on weekends multiple times. Every interaction I have had with them has been incredible. Highly recommended."

In another review, Debbie Ringo says, "I had a great experience. The office space is very clean and professional. The office staff are very friendly. Appointments run on time, which is a big plus for my busy schedule. Dr. Lucy does a fantastic job with fillers and Botox. I look younger as my lips are slightly plump but not overdone. I can still move my brow although we erased forehead, bunny lines and crow's feet. My friends were all asking whether I got new makeup or commenting I looked somehow different or well rested! Nurse Glynis gave me a nice Meyers cocktail IV, which was painless and relaxing but gave me tons of energy. Fantastic experience. I have already set up my next appointment!"

Those who want to learn more about Revitalize You MD and their services are welcome to visit the center's website to explore further. Additionally, they encourage interested parties to get in touch with Rachael Clark directly via email or phone. The medical center can also be reached through the contact form on their website. Revitalize You MD also maintains a Facebook page where they frequently post updates, share

media and communicate with their followers.
