June 11, 2020 - PRESSADVANTAGE -

Dearborn, Michigan based Masri Clinic For Laser and Cosmetic Surgery is reaching out to the community to share some of their most recent and inspiring success stories from happy patients.

Having risen to star status as one of the most distinguished cosmetic surgery providers in Michigan, the Masri Clinic for Laser and Cosmetic Surgery has accumulated a significant number of success stories with their patients. Through these stories, which are a testimonial to the skills and commitment of their surgeons, the clinic seeks to offer words of reassurance and motivation to the members of the community who may be contemplating their next procedure.

Dr. Haitham Masri, a representative and plastic surgeon at the Masri Clinic for Laser and Cosmetic Surgery, says, "Cosmetic surgery encompasses more than a simple improvement to someone's looks. For many, it is a way to address their insecurities, and it is a reflection of their inner selves to the outer world. It can also mean reconstruction and healing for someone who has suffered. It can help them move on from painful

memories and achieve an image of themselves that they can love. At the Masri Clinic, we understand what drives someone to make this kind of decision, and we are committed to helping them find a version of themselves that they can love and cherish."

Dr. Masri states that the clinic shared success stories from some of their patients in hopes of inspiring and motivating others who may be doubtful about taking the first step in such an important decision. One such testimonial, shared on their website by Kate Khalyle, says, "Started to have painful breakouts on my face. I went to the doctors previously and had no results. Dr. Masri immediately diagnosed and treated my condition, and I have had amazing results. There are still two treatments left, and I am already looking and feeling like myself again. Thank you, Dr. Masri."

In another testimonial, Marta Monson, says, "I've known Dr. Masri since he opened his Birmingham clinic. I feel he is an extremely well-qualified doctor in quite a few areas of medicine. He is board-certified in Plastic & Reconstructive Surgery, is Michigan's first Board Certified Facial Plastic Surgeon and is also Board Certified in Otolaryngology and in Sleep Medicine. His outstanding credentials speak for who he is and his ability as a well-qualified and knowledgeable doctor/surgeon. As a person, he's a very gentle, humble and kind man. A brilliant doctor, who speaks to you in a language you'll understand. I trust him completely and highly recommend his knowledge and expertise." Read more on the clinic's Google Maps listing.

The Masri Clinic for Laser and Cosmetic Surgery specializes in cosmetic rhinoplasty and reconstructive nasal airway surgery. The clinic earned recognition as one of the best rhinoplasty clinics in Michigan by combining both cosmetic and reconstructive techniques to improve the appearance of the nose and the patient's ability to breathe. The clinic states that they can treat some of the most popular health conditions that push patients to seek rhinoplasty, including turned-up noses, roman noses, bumpy noses and fleshy noses. They can also tailor any cosmetic surgery procedure according to their patient's desires.

Some of the other procedures carried out at the Masri Clinic include Facelifts, Liposuction, Breast Augmentation and Reduction and Scar Revision, among others. Dr. Masri, the cosmetic surgeon in charge of these procedures, possesses over 28 years of experience in the field of cosmetic surgery, and this places him firmly among the most skilled cosmetic surgeons in Michigan. He places his expertise and skills at the disposal of his patients, using the latest advancements in the field of laser and cosmetic surgery procedures for both surgical and nonsurgical applications in order to guarantee the best results for his patients.

Dr. Masri says, "We believe that it is our duty to work alongside each of our patients and determine their expectations and goals, setting out a clear path from the first consultation all the way to the surgery. We take great pride in doing this, and we believe that this is the only way to guarantee that we obtain the best results."
