## **USA Mortgage Helps People Find Home Loans In Springfield MO**

*September 08, 2015*

September 08, 2015 - PRESSADVANTAGE -

USA Mortgage, based in O'Fallen, MO, is proud to announce that it offers people a personal, accountable service when it comes to finding home loans in Springfield MO. The company wants to set itself apart from the rest by offering a personal service that allows people to find the home loan that is best suited to their needs. They are also happy to work with people who have less than perfect credit, helping them to improve their rating and, in so doing, their home loan rates.

Mike Duncan from USA Mortgage says: "I believe offering home loans should not be a tick box exercise. It should be about finding something that is just right for each individual. This means that my strongest focus is on customer service and developing that personal and accountable relationship with each of my clients."

Most people would turn to a local bank to find Springfield Missouri home loans. However, the banking system has changed tremendously over the years, and particularly since the latest financial crisis. As a result, local banks do not actually have local money to fund home loans. Instead, they source these from the private market. This means that people are not actually given the product that is best for their needs. Rather, they are provided with a loan to the highest bidder.

"Working with me and USA Mortgage means that people are able to access the best possible rates with maximum control and full accountability," adds Mike Duncan. "I do not find the home loan that will make me the most money, but rather I find the one that costs my clients the least money. That is what matters to me. You cannot make a house a home if you are being crippled by payments, after all."

Mike is known for going out of his way to help each of his clients. For instance, he does not follow the 9am to 5pm work hours on weekdays only. In fact, he doesn't even expect his clients to come to him. Rather, he is happy to work when he is needed and where he is needed, which means he will often go to his clients' homes. Thus, when it comes to home loans Springfield MO residents may want to take a look at the company's services.
