

## **Essex Union Podiatry Caldwell Stands Ready To See New Patients**

*June 12, 2020*

June 12, 2020 - PRESSADVANTAGE -

Essex Union Podiatry (EUP), a Caldwell, New Jersey based podiatry clinic, would like to announce that they are now open and taking appointments. The comprehensive foot and ankle care center had previously shut down in order to comply with the social distancing orders put in place to combat COVID 19. With restrictions being lifted, however, Essex Union Podiatry is once again open and ready to help their patients. To ensure the safety and well-being of all their patients, they will be following all CDC guidelines in order to keep all potential risks to a minimum. This will allow them to continue providing quality care without fear of compromising their patients' health.

Essex Union Podiatry provides complete foot and ankle care to patients in Essex and Union counties from three conveniently located branches in Rahway, Springfield and Caldwell, New Jersey. EUP is run by four experienced physicians: Dr. Jason Galange, Dr. Marshall Feldman, Dr. Nancy Kaplan and Dr. Sarah Haller. Each is trained in a wide range of specialties and can meet the needs of adults as well as children and adolescents. Their decades of experience combined with the use of the latest and most advanced tools allow them to provide excellent surgical and non-surgical treatment options.

Dr. Galante is double board certified in podiatric medicine, foot and ankle surgery and hyperbaric medicine. He is one of the most experienced surgeons in New Jersey in reconstructive and sports-related foot and ankle surgery and medicine. Dr. Nancy Kaplan is a fellow of the American Board of Foot and Ankle surgery with certification from that board. She currently serves multiple organizations and has a great deal of experience working with people of all ages. Sarah Haller specializes in musculoskeletal deformities, sports medicine and post-traumatic and cosmetic reconstruction. She is the founder of the New Jersey Foot and Ankle Foundation and acts as an expert reviewer for medical journals. Drs. Galante, Kaplan, Haller and Feldman are all available to help with a variety of issues, and one can rest assured they are in good hands when they receive care at Essex Union Podiatry.

At EUP, we pride ourselves on delivering a superior level of service with a comforting bedside manner, says EUP. With same-day appointments and in-network insurance, we are fully invested in the patient as well as the hands-on quality care we provide. At Essex Union Podiatry, we have a commitment to personalized, compassionate care when it comes to your condition and its treatment. With a team approach and an emphasis on patient education, we work hand in hand with our patients to ensure that you are thoroughly informed about your diagnosis, treatment options and preventative care. We create a customized plan that works best for you, and we include you in the decision-making process. Our goal is to get you moving again and to promote your improved health and well-being with minimal downtime.

Some of EUP's treatments include foot and ankle deformity correction, sports medicine to help those suffering due to sports related injuries and general podiatry, among many other services. A number of people have left reviews of EUP on multiple platforms, including the podiatry's Facebook page and Google Maps listing. One Google Maps review from a pleased patient states, "My grandma has been dealing with a nasty case of foot fungus for most of her life. She's been hesitant to visit a podiatrist and have it professionally treated. After some convincing, I was able to bring her to Essex, and the doctors made her feel at ease. She said she wishes she'd done this sooner. Thanks for taking care of my nana. Very professional clinic!"

Another client also left a 5-Star review on Google Maps, stating, "Dr. Galante and his staff are outstanding! He listens to your issue and gets the job done! I've suffered from plantar fascia for a few years, seen three other podiatrists with no relief from my pain. Dr. Galante performed a procedure that took the suffering away and had me walking pain free in no time!"

For more reviews and information on the foot and ankle clinic, read Essex Union Podiatry's GMB Listing. More information can be found on the clinic's official website as well.
