For example, Teri M. gave them a five star rating and said, "They came in and an amazing job on our white steps and white couch with charcoal stains. The entire house smells amazingly clean. Super nice guys that are really professional and are dog lovers. Prices are so great we will have them back multiple times a year." Alixe B. also gave them five stars and said, "Meyer Carpet Cleaning did a wonderful job cleaning the Mayville Public Library's carpet and upholstered furniture - we have used them in the past and are just as happy this time around with the results! Meyer Carpet Cleaning provides various kinds of carpet cleaning services. These include encapsulating cleaning, steam cleaning, water extraction services, low moisture cleaning, upholstery cleaning, how water extraction, rug cleaning, cubicle panel cleaning, dry cleaning, pet stain removal, carpet and upholstery deodorizing, antimicrobial treatment, germ removal, and virus killing hydrogen peroxide treatment.

Upholstery cleaning is an important service because padded sofas and chairs are favorite places for family members as they relax and watch television or socialize with other family members and guests. The upholstery of these furniture eventually accumulate a lot of dirt, dust, and other debris and may even have a foul odor. With the upholstery cleaning service provided, the upholstered furniture will appear cleaner and brighter, which has a significant impact on the appearance of the room.

Their rug cleaning services are also vital for the home or office. Just like with carpets, the dust, dirt and debris that accumulate in the rug usually go deeper than the vacuum cleaner will be able to reach. If these are not removed, they will eventually find their way into the air, thus severely affecting indoor air quality. This is because people walking on the rug will exert a force on the fibers and on the accumulated dust, dirt and debris, sending them up in the air. The air conditioning system will then cause the air laden with these contaminants to circulate around the home or office.

At Meyer Carpet Cleaning, they can clean any kind of rug, including Persian rugs. They will clean those rugs with care because they are aware that certain rugs are expensive and some have gained a lot of sentimental value through the years.

Those who are interested in carpet cleaning services can visit the Meyer Carpet Cleaning website, or contact them on the telephone, or through email. They are open 24 hours a day, every day of the week.
