

Simply Green Plumbing Announces They Are Now Open After COVID - 19 Lockdown

June 16, 2020

June 16, 2020 - PRESSADVANTAGE -

Los Gatos, California based Simply Green Plumbing is reaching out to the community to announce that they are now open. As the COVID-19 safety and spread-prevention measures lessen across the country, the company looks forward to begin serving their customers again.

While the past few months have brought unprecedented events all across the world, now that safety measures have been pulled back and businesses are reopening, the local plumbers have also resumed their operations. Lisa Green, owner of Simply Green Plumbing, states, "We are very excited and fully prepared to begin taking care of our customers' plumbing needs. Even though we are now open after COVID-19 has mostly passed for the moment, we wish to maintain the safety and well-being of our customers and employees. As a result, we will take all of the precautions recommended by the CDC into consideration when responding to a call for assistance."

Green states that, for the time being, they will observe the CDC's guidelines during all of their service calls. This means they will run no-contact service calls when possible, use protective masks and gloves and sanitize all surfaces that their crews come in contact with. They will also be complying with any additional

safety requests from their customers, guaranteeing their peace of mind while the professionals handle any plumbing issues that are present on the property in question.

"While this seems like a lot to take on at first, we guarantee that the quality of our services will under no circumstances be negatively affected because of these precautions. Our crew is staffed with highly-qualified individuals who would not let something like this affect the quality of their work," says Green. "Our team will come to your home or business, tend to your plumbing needs and depart once they have cleaned up after themselves, just as we always have. Even if they do not offer a handshake out of respect for your safety, you can still count on them to deliver the best plumbing services in Los Gatos at the most competitive price."

Simply Green Plumbing offers a variety of services, though their most popular is general plumbing. This includes the installation, repair, maintenance and replacement of Faucets & Fixtures, Garbage Disposals, Gas Line Plumbing, Piping and Toilets, among many others. In addition to this, the company also covers some of the most complicated Drain and Sewer Services, including Drain Cleaning and Rooter Service, Hydro Flushing and so on.

All of these services are covered under the company's emergency service response protocol, in which they give priority to customers who need their immediate attention assistance. They offer a same-day response (at no additional cost) to customers dealing with a situation that needs to be rectified promptly. Simply Green Plumbing's services are available to all residents of Los Gatos and the surrounding areas.

Simply Green Plumbing enjoys an outstanding review rating of 4.5 out of 5 Stars on the Google platform. Through this space, many satisfied clients have reached out to share their experience with the local company. One of their most recent reviews, written by Allen Rudolph, says, "Dave and his crew are efficient and highly competent professionals. They kept me apprised of their progress, they finished the job quickly and they did excellent work. You can count on them for a careful evaluation of the problem, and they will let you know of recommended repairs in a friendly manner without any pressure. The office staff are very friendly and responsive too. Highly recommended for your plumbing needs!"

Another review, written by Joanne Gemmell, says, "When my basement flooded recently, I called Simply Green. Bill came out the very next day. The source of water entry was difficult to diagnose. Bill and his team did a thorough evaluation of the property, including examining the crawlspace on hands and knees and hiking up and down the sodden hillside. They cleaned out and followed the course of the downspout drains, dug new trenches and replaced cement-like clogged pipes. The water barrier membrane on a foundation wall, accessible only via the crawlspace, was replaced. Their promptness, on-going communication and professionalism made my disaster easier to bear. I would highly recommend Simply Green Plumbing.

The company's website offers more details on Simply Green Plumbing and their services. Interested parties may reach out to Lisa Green to follow up on any inquiries as well. They may also connect with the company through their official social media platforms.
