Roof Repairs Project by Hamilton Company Straight Arrow Roofing Earns Five Stars

June 22, 2020

June 22, 2020 -

Straight Arrow Roofing, a roofing repairs company offering its services in Brantford and Hamilton, ON, Canada, and neighbouring areas, has announced that they have received a five-star review after they performed repair work on the defective roof of a home the customer, Anthony Eysseric, and his family had just moved into. It should be noted that it was not the first time they have received such a glowing review. In fact, they have an overall rating of 4.7 out of 5 stars on their Google Maps page.

In his five-star review of Straight Arrow Roofing, Anthony Eysseric said, ?Amazing guys, great experience. Me and my wife recently moved to Brantford, and we had noticed that the previous homeowner thought of himself as a handyman. Thanks to Straight Arrow Roofing, a horrendous flashing job was replaced and now it looks better than ever. These guys know what they are doing, no hassle, no gimmicks, they get back to you in a timely fashion, and stick to their word. They showed up bright and early on this Saturday morning as promised and got the job done. Truly a great experience dealing with them. For any repairs or roofing projects, call these guys. Thank you again for everything, you guys are life savers.?

In response to the Straight Arrow Roofing customer review, Joel Guerra, owner of Straight Arrow Roofing,

said, ?We?re always glad to be of help to homeowners in Brantford, Hamilton and nearby areas. We?re so happy to hear that Anthony was very satisfied with our service. Rest assured that we?ll continue to do our best in ensuring that families in the area will have a reliable roof over them that will really protect them from the heat of the sun and extreme weather conditions. We encourage our customers to provide us with feedback because it will keep us on the right track in pursuing our goal of offering the best roofing service in the area.?

Straight Arrow Roofing is a GAF-certified roofing contractor, which implies that they offer quality roofing systems and exceptional service. They offer 50-year lifetime warranties to assure customers that there are no defects in the roofing materials.

They offer several kinds of services. These include residential roofing, siding installation and repairs, eavestrough and gutters, attic insulation, flat roofing, skylight installation and repairs, and roof maintenance.

They want to point out that homeowners need to look for various signs that may indicate the need for roof replacement. First is the age of the roof. While roofs normally last for approximately 20 to 25 years, this will vary depending on several factors, such as whether the roof is well-ventilated or whether the existing roof was installed on top of a pre-existing roof. If the roof was installed over an old roof and it is more than 20 years old, the roof will likely require replacement.

Damages to the roof are also signs that the roof already needs replacement. Missing shingles especially in the valleys are also possible signs that the roof is nearing the end of its life expectancy. Rain and snow flow down these valleys, which means that if there are missing or defective shingles there, there could be a roof leak, which could seriously affect the home.

Roof shingles that are starting to curl are also indications that the roof may already require replacement, and so are missing shingles on any part of the roof.

It is also essential to check the chimney flashings. If these are not watertight and they are filled with roof cement or tar, it may be time for a roof replacement. And finally, if the gutters are filled with shingle granules, this means that the shingles are degrading and the roof may soon need to be replaced.

Homeowners and other property owners who are in need of Hamilton roof repairs may want to check out the Straight Arrow Roofing website, or contact them through the telephone, or via email. They are open every day of the week, from 9:00 am to 6:00 pm.
