

Car Accident Chiropractor In Atlanta Shares Success Story From Fully Recovered Patient

June 17, 2020

ATLANTA, GA - June 17, 2020 -

Atlanta, Georgia based Arrowhead Clinic is reaching out to the community to celebrate one of their most recent success stories, as shared by a fully recovered car accident patient. With 41 years of experience in the field, the Arrowhead Clinic for chiropractic care has assisted the healing and recovery of thousands of patients. Over the years, the clinic has gathered several hundreds of success stories from their patients who have shown their support and appreciation for the clinic's work through their testimonials.

Through the Google platform, the Arrowhead Clinic has received over 500 customer reviews, maintaining a perfect review rating of 5 out of 5 Stars that showcases the excellence of their services and their outstanding customer service. One of their most recent testimonials, and the story celebrated by the company, was shared by a client named Ann through this space. She says, "When I first got into my car accident, I was distraught and in so much pain! My car was a total loss due to the accident. The doctor was awesome, and after treatment, I am feeling much better. The receptionists were awesome, very friendly and informative."

"We are happy to see the positive impact that our chiropractic care services have on patients like Ann," says Johnny Brown of Arrowhead Clinic. He explains that the clinic was created to fulfill the growing demand for

patient care after an accident, and they seek to offer a service that helps and supports each of their patients through a speedy recovery.

Brown says, "The success stories that they share and the support that our patients show is what motivates us to continue giving our best every day, knowing that we are making a difference in our patient's lives. Every Arrowhead Clinic car accident chiropractor is fully committed to helping their patients, accompanying them through all steps of their recovery, and offering guidance to guarantee a full recovery from their injuries."

With the encouragement of the clinic, several other patients have reached out to express their gratitude towards the establishment's practitioners, showing why Arrowhead Clinic is known as the best chiropractic care facility in Atlanta. One such testimonial, shared by Michelle S., says, "Everyone that works at this location is absolutely great! Super nice, and they walked me through everything and also explained everything that I didn't quite understand. I recommend coming to this location if you're ever in a car accident. I'm glad I did! They even helped me with my active 18-month-old while I got treatment, which I'm grateful for because this is clearly a treatment facility and not a daycare—but they never complained! Love you guys, really will miss coming."

The Arrowhead Clinic bases its chiropractic care services on thoroughness, attentiveness, and commitment towards their clients. Every new patient of the clinic undergoes a chiropractic examination during their first visit, which includes a thorough physical exam along with digital X-Rays and MRI. The purpose of this is to discover and diagnose any underlying issues within the patient's condition and discomfort (especially if caused by accident injuries).

Once properly diagnosed, the clinic's chiropractors can devise the best chiropractic treatment, tailored to the patient's particular recovery needs. Brown says, "We have been treating car accident injury victims for over 40 years, and as such, we guarantee that we'll get to the bottom of our patients' afflictions and treat them to a full recovery."

Arrowhead Clinic specializes in treating various kinds of injuries, including those caused by Car Accidents, Slip and Falls and Work Injuries as well as Neck Pain, Back Pain and so on. The clinic has 17 locations in Georgia, split across the Atlanta, Athens, Savannah, Brunswick, Albany, and Hinesville areas. At all of their locations, the clinic offers free consultations, allowing patients to get an upfront quote and preliminary diagnosis of their affliction for future treatment.

The clinic's website offers more details on Arrowhead Clinic and their services, along with a contact form through which clients may schedule an appointment with the Atlanta car accident chiropractor. Interested

parties may reach out to Johnny Brown to follow up on any inquiries as well.
