June 17, 2020 - PRESSADVANTAGE -

Cash Offer on House, a home buying company based in Landrum, South Carolina, is pleased to announce that they are buying and selling all types of properties in Hartford and other areas in the state as well as nearly every other state in the US. They are interested in mobile homes, manufactured homes, multifamily properties, commercial properties and so on.

As noted on the company's website, Cash Offer on House is known for their swift response when it comes to purchasing properties in the US. They understand that the usual home selling experience is long and troublesome due to the repairs and lengthy paperwork needed as well as the numerous agents and tenants the owners have to deal with. In line with this, the company asserts that their clients enjoy the advantage of putting their properties for sale on an as-is basis, thereby eliminating the need for costly repairs and renovation. This enables them to focus on other aspects of the sale or their daily lives rather than stressing about revamping their property in order to successfully sell it. Complete details regarding the advantages of selling houses directly through Cash Offer on House can be found here: <https://cashofferonhouse.com/connecticut/new-britain/>.

Meanwhile, the real estate company also explains that home sales can be done in a flexible and hassle-free manner, without the need to mend damages nor dispose of unwanted items. By working with Cash Offer on House, homeowners can sell their house regardless of its condition. They also allow homeowners to set the timeline of the sales transaction and even provide assistance with major debts (such as mortgages and foreclosure). The company is focused on buying and selling a property as fast as they can to help their clients get the fast cash they need, especially during an emergency.

Don Phelps of Cash Offer on House also asserts that their process of purchasing homes is very quick and efficient. Aside from the fact that realtors and other third parties are no longer able to interfere with the transaction, homeowners can also avoid paying hidden charges, escrow fees and agent commissions. In

addition, the company gives a decent, all-cash offer in as little as one day, and homeowners also have the freedom to choose the closing date on their own. As a result, their clients have complete flexibility and control of the moving timeline and will neither feel rushed nor delayed.

Through Cash Offer on House, homeowners no longer need to list their houses and undergo the complicated processes of haggling, cleaning out and waiting for a long time to close the deal. More information on how Cash Offer on House maximizes home sales profit can be found on their Facebook page at <https://www.facebook.com/CashOfferOnHouse/>.

Moreover, Phelps also explains that coordinating with real estate agents tends to cause delays. In traditional real estate companies, sellers usually have to wait a period between six months to one year for their transactions to be completed. With Cash Offer on House, homeowners are able to get the money they need in just 7-30 days. The time difference, which ranges from five to eleven months, really matters, especially when the money is needed for urgent reasons. This swift process relieves unnecessary anxiety as well.

Cash Offer on House also points out that their dedicated staff are able to ease the burden caused by selling a house. Through streamlining strategies, they are able to employ more efficient, time-saving methods while making sure that risks are mitigated as well. Thus, homeowners can rest assured that they will never have to worry about excessive deadlines and paperwork.

Cash Offer on House takes pride in their process, which has proven to be the most effective way for homeowners to get assurance that their house will sell while eliminating stress from agents, repairs and loads of paperwork.
