Lithia Springs Car Accident Chiropractor Receives Glowing 5-Star Review on Google

June 17, 2020

Lithia Springs, Georgia - June 17, 2020 -
Arrowhead Clinic Lithia Springs, a well-known chiropractor, is very pleased to announce that it has recently received a glowing 5-star review from a customer on Google Maps. Timnesha H., a very satisfied client, had this to say, ?This place is amazing! Their work definitely made a difference in my progress after my car accident. The chiropractor is great! He?s not too rough and he?s considerate of your pain. Cassandra was the first person I encountered, and she was so nice! I was in a bad mood and snappy because I was in pain and she was still so nice to me and professional. She always has a smile on her face and it honestly put me in a better mood. This place has truly been a blessing!

John Callister, a spokesperson for Lithia Springs Arrowhead Clinic, said, ?It is always beneficial for a practice to get feedback from patients whether it is positive or negative. Feedback helps us to know what we are doing right and what needs improvement when something is not right. It is especially nice though when we get such a great testimonial from someone that we have tried to help and to know that we did it right.?

Lithia Springs Arrowhead clinic is well-known in the community for specializing in helping the recovery of victims of car accidents. Injuries sustained in a car accident are never pleasant of course, but it is not

uncommon for symptoms to appear later rather than straight away. Such symptoms may include dizziness, headaches, insomnia, numbing, stiffness, memory problems, low back pain, and neck pain, among others. Often proving to be an ongoing issue and not something quickly fixed, symptoms such as these can continue for months and sometimes even years.

Such painful symptoms do not take long to drastically affect a car accident victim's quality of life. Chiropractic is an option chosen by many to attempt to alleviate and even heal their symptoms and injuries. From a victim's point of view, it is critical to find a chiropractor who has a history of working with auto and truck accident victims. Many people have found that chiropractic care can help produce accelerated and long-lasting results following a car accident.

It is not just car and truck accident victims that the clinic works with, however. Victims of slips and falls, sports injuries, and even workplace accidents and mishaps are also frequently treated at the clinic. In fact, anyone suffering from neck or back pain should consider a visit to the Lithia Springs Clinic. Pain, tightness, restricted movement, or stiffness in the neck or back are all symptoms that may be treatable no matter what the cause.

Arrowhead Clinic's expert chiropractors will examine a patient's overall posture, spine alignment, and the spine itself in order to determine what the cause of the pain is. Depending on the results, a customized treatment plan with recommendations regarding nutrition, lifestyle, and sleeping positions may be made.

Originally founded by Dr. Harry W. Brown, D.C., a native of Atlanta, Georgia, and a graduate of Logan College of Chiropractic opened his first chiropractic office in Savannah in 1977. Arrowhead Clinic has been helping the citizens of Georgia ever since and has now become the state's largest chiropractic facility.

Lithia Springs Arrowhead Clinic is still open for consultation and treatment although phone consults are available and encouraged for the most at-risk patients. At the facility itself, the clinic has put in place many safety precautions to help protect staff and patients during the current pandemic difficulties. In-depth cleaning of regularly used areas takes place and personal protective equipment is used when applicable. In addition, patients are encouraged to practice social distancing and to use the clinic's facilities to wash their hands prior to treatment.

Anyone interested in finding a Lithia Springs Car Accident Chiropractor should visit Arrowhead Clinic?s website or Google listings where they can find out more about the services currently being offered.
