I've used them for lockouts, to replace the locks and install a deadbolt in my brand new home. The locks that were included with my house weren't the best, so I spoke with this company on the phone and they helped me figure out the best products that would keep my home secure. They gave me a great quote for completing the work and made as many keys as I needed, which was nice. I could tell that they were experienced and knew what they were doing."
