Car Accident Chiropractor In Decatur Posts New Blog on the Recommended Steps to Take After Being Involved in an Accident

June 23, 2020

DECATUR, GA - June 23, 2020 -
Decatur Car Accident Chiropractor, Arrowhead Clinic, has just posted a blog on their website that details the Recommended Steps an individual should take after Being involved in an automobile accident. These steps are designed to help document the events that took place concerning an accident and help a victim establish a path to get the medical help and legal protection that they need as a result of that accident.

Dr. Roy Vogel, one of the lead Chiropractors on staff at Arrowhead Clinic ? Decatur, says, ?When someone is involved in an automobile accident it can be a very traumatic and scary time for that individual. We at Arrowhead Clinic have seen this first-hand too many times. That?s why we decided that it was important to post this new blog on the steps to take after being involved in any type of car accident. Our clinic works closely with many doctors and law practices, so we are privy to what accident victims need to do to ensure that they get the medical and legal help that they need after being involved in an accident.?

In the blog article, which was written by Dr. Vogel himself, it mentions that the first step an accident victim needs to take after being involved in an accident is to contact the police. He advises in the blog that this step

should be undertaken regardless of the severity of an accident and how a person feels right after it. The article went on to say that if an accident victim is able to, they should also take several photos of the accident scene from many different angles. Dr. Roy Vogel also states in the post that it?s important for an accident victim to seek immediate medical assistance if required and to be aware that soft tissue injuries sometimes do not show symptoms until several days after an accident has taken place. It?s also recommended in Dr. Vogel?s blog article that an individual at least contact a car accident attorney to get their opinion as to whether or not they should pursue a legal claim. The blog ended by saying that Arrowhead Clinic is always available for free consultations to help with any ongoing treatments that an accident victim may require.

The clinic?s lead chiropractor also acknowledged that if an accident is severe enough that a victim may not be physically able or in a mental state where they can undertake the steps mentioned above. He said in that case the victim or a family member should contact a reputable personal injury attorney right away for help.

Dr. Vogel says that the staff members at Arrowhead Clinic are very aware of the steps that those involved in an accident need to take because that?s the reason so many seek out their healing specialties. The clinic?s services are also very highly rated by those that have used them. On just their Google Maps Business Listing alone the clinic has received some 466 reviews at present. When these reviews are averaged out, the clinic averages an outstanding 4.9 out of a possible 5-stars. In an example taken from these reviews, Torrence Chaney writes, ?Staff is very friendly and does a very good job at keeping work areas clean and equipment for us patients. Staff is always smiling and they greet you from the front to the back. Doctors are very nice and they help you understand much about what they are doing. I really appreciate the front desk they are the best young lady?s arrowhead clinic could possibly have on their team. Keep up the good service we love you all.?

In addition to helping patients recover from automobile injuries, Arrowhead Clinic also is well-known for helping to treat people that suffer from chronic pain, Sciatica, migraines & headaches, sports injuries, herniated discs, arthritis pain, neck pain, lower back pain, and Subluxation. For those in Decatur, Georgia that are looking for a ?car accident injury chiropractor near me?; Dr. Vogel says that people can set up an initial consultation with them by contacting the clinic by phone, email, or by filling out the form that?s found on the clinic?s website.
