

Arbor Trace Offers Quality Memory Care to London, Ontario Seniors

June 25, 2020

June 25, 2020 - PRESSADVANTAGE -

CoGir Real Estate is pleased to offer quality specialized memory care services at Arbor Trace Memory Care Center to London, Ontario seniors, details of which can be found here: <https://www.sunshineretirementliving.com/arbor-trace-memory-care-london-on/>. The Arbor Trace Center is a well-known senior assisted living center specializing in caring for residents who have memory care needs and cognitive impairments. The community's team is highly dedicated to fostering a kind and respectful environment where people with dementia can thrive while at the same time receive daily support.

The community's hallmark is its personalized support system that treats the resident's family as collaborators who will work alongside the staff to create a superior environment. Arbor Trace's personalized approach to memory care is based on the individuality of each resident and takes into consideration their specific needs.

Arbor Trace is proud to offer customized living options for senior assisted living, but the community teams also believe that residents' care is an important decision for a family to make. Accordingly, therefore, Arbor Trace is always fully committed to creating a caring partnership with the resident's family and providing family-friendly memory care services. The community's many living options are designed specifically to provide residents with comfort, warmth and a friendly environment.

Elizabeth T, whose elderly mother is a recently arrived resident, said "My mother has only recently moved into Arbor Trace, but it is already abundantly clear to all of us that she loves it there. She was beginning to struggle quite badly living alone, getting increasingly forgetful, and we simply couldn't always be there for her when she needed us to be. So that meant that she often ended up frightened and confused. Now that she is in such a caring environment, I know that she is being looked after as well as she needs to be."

The community also provides residents with all their meals. Dining options cover restaurant-style dining and

specialized dining programs available to meet the needs of all residents. The community also offers specified dining alternatives such as vegetarian food and low- or no-sodium options which may be necessary for or preferred by some residents. Residents' families and friends will be very interested to learn that Arbor Trace is more than happy to entertain visiting guests and meals can be included.

In addition to meals, very comfortable rooms, and assistance with the activities of daily living, the community team also has a beautician conveniently located on-site; residents can easily receive beauty treatments for all occasions. Personal housekeeping services are, of course, provided to residents as needed, and both laundry and dry-cleaning services are also offered. In addition, offsite devotional services, if required, are offered in the nearby area.

Arbor Trace Memory Care Center offers an activity program specifically designed for the residents and that meets the specific individual needs of those with memory loss. Residents can stay active with specially curated on-site activities that stimulate both mental and physical health. A full-time Director of Activities ensures that residents will stay engaged and can enjoy a diverse cycle of events and recreation.

The indoor common areas at Arbor Trace are quiet and a nice place to enjoy the company of fellow residents or simply to just relax. The building includes an airy, bright atrium space. Residents have access to the facility's communal spaces, including a fully stocked arts and crafts center as well as a TV lounge.

The community's outdoor common areas have been specifically designed with accessibility, flow, and freedom of movement in mind. The Arbor Trace grounds offer an enclosed and safe courtyard to enhance residents' recreation hours. The community also boasts an outside patio garden accessible to all residents, raised gardening beds available to residents during their leisure hours, and indoor and outdoor walking paths. The entire community, indoors and out, is secured to protect the community's residents.

To learn more or to schedule a tour of Arbor Trace, please contact the community's friendly team at (519) 681-0002 or visit ArborTrace.ca.
