

Wheaton Roofer Continues To Serve The Community

June 22, 2020

June 22, 2020 - PRESSADVANTAGE -

Wheaton, Illinois based Naperville Roofing & Construction is reaching out to reassure their community that their services will continue to be available for the foreseeable future.

James Kucharz of Naperville Roofing & Construction states, "We want to let our customers know that they can always count on our services despite the ongoing COVID-19 pandemic. We have taken all precautions necessary to guarantee the safety of both our staff and customers. As part of our response, we will be following all CDC guidelines, including keeping contact at a minimum and using protective equipment. We have a responsibility towards the community and will do everything within our power to continue offering reliable roofing services during these difficult times."

According to the company, the quality of any projects they take on will not be affected by current circumstances. This is due to the fact that their team is made up of individuals who each have a track record of providing professional roofing services to their customers, and their work is complemented by the fact that they use only high-quality materials in every project. These professionals are used to working under pressure, showing their ability to adapt to different situations while delivering top-notch services.

"Roofing is the kind of project that you only want to leave in the hands of highly-qualified professionals," says

Kucharz. "Aside from undergoing continuous training to ensure that they stay up-to-date on industry changes and modern construction techniques, our team is also equipped with high-quality equipment. This brings a great deal more efficiency to all tasks, bringing down costs for our customers and speeding up the project without compromising safety or quality."

The company also states that their roofing team makes use only of the best materials on the market, working exclusively with products from reputable manufacturers. This guarantees that every project they complete will be quite durable and long-lasting. As they say, any roofer in Wheaton is only as good as the products they use for their jobs.

The commitment that Naperville Roofing & Construction shows towards offering only the best services has earned them a distinguished reputation as one of the most reliable and attentive contractors in the area. They have operated in the region for several years, delivering quality workmanship and professionalism to local residents. The community has not hesitated to show their support and appreciation for the company, and this is made evident by the fact that they have received several customer reviews that attest to the excellence of their services as well as their outstanding customer attention.

Through the Google platform, Naperville Roofing & Construction enjoys a perfect review score of 5 out of 5 Stars, which places them among the top-rated roofing constructors in the area. One of their most recent testimonials, written by Jacob B., says, "I have had my house for years, and I have always had a roof issue until I met the guys from Naperville Roofing & Construction. They are friendly people to work with and are quite keen. When they got to my place, they inspected the entire roof and pointed out issues I never knew existed. The best thing is that they charged a reasonable amount and, since then, I have not had a single roofing issue. Thanks, guys."

Another review, written by Raymond S., says, "They just replaced my gutters, and I couldn't be happier. The previous ones were old and, somehow, water was finding its way to the siding and destroying it slowly. I got quotes from a couple of companies but decided to go with Naperville roofing because they were quick to respond and had a sensible quote. I am glad I worked with them and would like to recommend them to anyone looking for professional roofing services."

The professional services offered by Naperville Roofing & Construction include Siding, Rainware, Home Additions, Painting and Roofing Repair, Maintenance and so on. The company also offers emergency coverage for their roofing services, through which they guarantee an immediate response to their customers' most pressing matters.

The company's website offers more details on Naperville Roofing & Construction and their services. Interested parties may reach out to James Kucharz to follow up on any further inquiries as well. Additionally, they may fill out the contact form on the company's website to schedule an appointment.
