Imperial Crane Services Provides Crane Sales In Chicago

June 25, 2020

June 25, 2020 -
Chicago, Illinois based Imperial Crane Services would like to announce the availability of their crane sales in Chicago. The company has a number of new and used cranes for sale, from a range of trusted manufacturers, at a variety of price points. Companies in the Illinois area trust Imperial Crane Services to have everything they need, and they may use the company?s website at any time to browse lists of cranes for sale and rent.

?Whether you are looking for new cranes or used equipment, Imperial Crane Sales has a variety of quality machines that will meet your lifting needs,? the company says. ?Need equipment on a steadier basis? Buy it. If we don?t have it, we?ll get it. Can?t afford to buy at this time? Lease or rent-to-own. Turn your equipment into your own profit center. We also specialize in Aerial work platforms, telescopic forklifts, construction hoists and boom trucks.?

The company also offers crane rentals. Buying a crane may be too expensive for certain businesses, so Imperial Crane also offers their clients the option to rent the equipment they need. It is generally more affordable to rent a crane than it is to buy one, especially if a specific type of crane is needed for one specific

job. If handled correctly, hiring a crane can and often does turn out to be a more affordable and more efficient way to complete a project. Crane rentals in Chicago are a great option for those who do not need to buy a crane outright. Furthermore, Imperial can help their clients select the right crane for any given project.

Imperial Crane is one of the largest crane companies in the world, and the company is often described as an American success story. John Bohne, the son of German bean farmers, started with a 25 ton crane in 1969 and managed to become one of Chicago?s most powerful businessmen through hard work. As a result, his company has a reputation for always delivering what they promise. Imperial Crane says, ?Whether it?s the famed Trump Tower, a Citgo Petroleum plant, a British Petroleum oil facility or a common daily taxi rental service in the tough American marketplace, Imperial Crane will rise to the occasion every time. With their enormous fleet, they have proudly completed thousands of projects with impeccable performance, while consistently delivering to their clients the highest levels of safety in the industry.?

The company has been run by BJ Bohne since 2003 and has since grown in every way possible?with the number of employees going up, revenue quadrupling and Imperial Crane Services spreading their influence around the globe. They have won multiple awards over the years by offering excellent customer service and reliable crane rental service, and the company aims to continue doing so far into the future.

The company says, ?Our commitment to excellence is the most integral component in our daily operations. This means that we are dedicated to the highest standards in safety, service and quality. From the receptionist to the foreman, that commitment shows through our remarkable customer service, our state-of-the-art technology and the safest equipment and procedures anywhere in the world. Our greatest resource is our people, and their dedication is what has made Imperial Crane a trailblazer in this industry.?

Imperial Crane Services has received dozens of great reviews from pleased customers. Bryce Peterson, Director of Equipment Operations at Wanzek Construction, says, ?I?ve been aware of Imperial Crane Services for the past couple of years from peers in the industry. Imperial Crane Services has a reputation for having a lot of high-quality equipment, so we chose the company for that reason. The wind projects are not the first time we?ve utilized Imperial Crane Services? cranes. We?ve worked with them in the past and will continue to work with them in the future.?

Another customer, Omega Demolition Senior Project Manager Keith Splitgerber, states, ?Thank you for your continued efforts to provide Omega with excellent equipment, quality operators and superior customer support to continually fulfill Omega?s project needs. Imperial is a highly regarded and valued resource for Omega Demolition. Additionally, Omega would like to thank Imperial for providing additional training and support during Omega?s Safety Meeting this past week. Omega?s ongoing pursuit of the highest levels of safety on all of its projects is obviously echoed by Imperial.?

Imperial Crane has solutions for any and all construction needs, including emergency crane services. For more information on the company and what it offers visit the Imperial Crane Services website or contact Gina Kaktis of Imperial Crane Services, Inc.
