# Arrowhead Clinic Explains How a Car Accident Chiropractor in Savannah Can Help with Whiplash

*June 29, 2020*

Savannah, Georgia - June 29, 2020 -
Arrowhead Clinic - Savannah, Georgia, has revealed that they have recently published a blog post on how a chiropractor can help with a whiplash injury. The article explains what whiplash is, how a chiropractor can help with whiplash, the common symptoms of whiplash, and how chiropractic care after car accident may help. A whiplash usually occurs when a person is involved in a car accident or any other kind of accident where the muscles and ligaments of the cervical spine are forced beyond their usual range.

Dr. Rachel Banks from the Arrowhead Clinic in Savannah, says, ?A general practitioner may not be able to treat whiplash with more than pain medicine, but your chiropractor can diagnose it and treat it at the source. Your chiropractor will be able to gradually diminish your neck pain until your whiplash symptoms are no longer present.?

Most people who have whiplash don?t start to notice their neck pain symptoms until 24 to 72 hours after the accident. That is why accident victims need to consult with a chiropractor as soon as possible after an accident. Chiropractic doctors have the training to diagnose and treat soft tissue injuries like whiplash. They are trained to provide safe and natural realignment of the spine to treat neck and back injuries.

Chiropractors have the necessary knowledge about the spine, including its bones, muscles, discs, and ligaments, and how all of these are able to function optimally together. The cervical spine is that part of the spine that supports the head and neck. Whiplash destabilizes the spine, resulting in extreme pain on the neck, shoulders, and upper back. The common symptoms include upper back pain, shoulder pain, headaches or migraines, dizziness, stiffness, shooting pains, arm pain, fatigue, ringing ears, jaw pain, and insomnia.

The chiropractors at Arrowhead Clinic in Savannah specialize in providing treatment for whiplash. They are capable of diagnosing the injuries and establish a treatment plan that is custom-fitted to the needs of a particular patient to alleviate the symptoms. The chiropractors are capable of detecting injuries and subluxations through muscle testing and manual palpation. They also use 3D x-ray technology to find out if any hidden issues are affecting the patient?s ability to achieve optimal health.

Patients at Arrowhead Clinic in Savannah undergo a comprehensive rehabilitation program that will take care of their complete musculoskeletal and nervous systems. They want to point out that while the medical team and chiropractors at the clinic are able to eliminate the pain quickly, their ultimate goal is to help the patient live an abundant life. The medical doctors and chiropractors at the clinic are able to provide treatment for various conditions. These include ankle sprains, Achilles tendonitis, carpal tunnel syndrome, auto accident injuries, golfer?s or tennis elbow, frozen shoulder or adhesive capsulitis, hip pain, hip flexor/psoas tendinitis, hamstring pulls/strains, neck pain, low back pain, knee sprains, iliotibial band syndrome, TMJ, shin splints, sciatica, rotator cuff strains, plantar fasciitis, patellas tendinitis, whiplash, and tension headaches/migraines.

There are a number of factors that make the Arrowhead Clinic in Savannah stand out among the other clinics in the area. These include the fact that they are conveniently located; that the chiropractic clinic is open late; quality chiropractic care offered by licensed medical doctors and professionals; same day appointments and walk-ins welcome; and the use of state of the art diagnostics and scientifically supported treatments.

Dr. Rachel Banks obtained her BS in Biology/Pre-Medicine degree from Jackson State University in 1990. She earned a doctorate in chiropractic from Life University in 1997. She is a member of the Georgia Chiropractic Association and joined the Arrowhead family in 2009.

Those who would like to learn more about how a Savannah car accident chiropractor can help with whiplash may want to visit the Arrowhead Clinic - Savannah, website, or contact them on the telephone or through email. They are open from 9:00 am to 7:00 pm, from Monday to Friday.

"description": "Dr. Rachel Banks graduated from Jackson State University receiving her Bachelor of Science degree in Biology/Pre-medicine in 1990. She then moved on to attend Life University when she was called to the healing aspects of Chiropractic care, she graduated in 1997 with a doctorate in chiropractic. She?s also a proud member of the Georgia Chiropractic Association. Dr. Banks joined the Arrowhead family in 2009 becoming the floater doctor in the Atlanta/Savannah/ Brunswick offices. Her belief and dedication to the field of chiropractic have made her an intricate part of Arrowhead Clinics. In 2016, she was asked to make a permanent move to Savannah taking over the Mall Clinic. Dr. Banks revamped the staff, implemented her own style of leadership and management and in 2018 her clinic won ?The Most Goals Met? in 2017. Dr. Banks was born and raised in Atlanta and a member of Alpha Kappa Alpha Sorority but enjoys living here in Savannah with her loveable fur baby - Lola. Call for Your Free Consultation Today! And, I can?t forget DR. F, he is amazing. You will go there feeling zero percent down, but, once you start getting treatments he makes sure that you are 100 percent better before your graduation period. I would recommend Arrowhead Clinic to any of my friends and family ????",

The results our patients see are a drastic reduction in acute pain symptoms and inflammation, increased lower back and neck ranges of motion, better sleep throughout the night and elevated mental clarity.  Please read some of our reviews by clicking on the image below to determine if we are the right fit for your and your family.  We achieve rapid results for our patients through chiropractic adjustments and active release therapy that functions to restore proper motion in the joints, decompression therapy that uses intermittent spinal traction to take stress off vertebral joints while simultaneously hydrating your discs, electrical stimulation to reduce muscular and nervous system pain in localized areas, and much more.",
