

High Point NC Roofing Contractor Now Offering Several Financing Options

July 02, 2020

July 02, 2020 - PRESSADVANTAGE -

High Point Roofing Contractor, Grace Roofing and Construction LLC, has just announced that they are now offering more financing options for their home improvement services than ever before. This includes the company's reputable residential roofing and gutter and downspout replacement services. Grace Roofing and Construction LLC also made it a point to partner with financing companies that make the approval process quick and easy and offer great rates to their customers.

Richard Sakowski, the company owner, says, "This has been a tough year for many. The ongoing virus crisis has definitely put the crunch on some people's finances. This has forced many homeowners to feel they have to put off doing such things as home improvements. That's not a great idea when it comes to leaky roofs or gutters and downspouts that no longer shed water properly. Well, we decided to do something to help. We are now offering more financing on our roofing and other home improvement services than ever before. It's our way of giving back to our customers for all they have done for us through the years. We are hoping this helps people stay on track as far as getting their roofing and other important home improvement tasks done."

Sakowski went on to say there are several reasons why people should take advantage of their roof financing options. He says that goes well beyond streamlining the approval process. Their financing partners are also offering loans up to \$100,000 where equity in a home is not required. They are even accepting and approving financing applications from customers with anything from poor to excellent credit ratings. The company owner says most of their financing options feature no prepayment penalties and their customers can rest assured that comparing financing options will not impact their credit score. Some of the reputable finance companies that Grace Roofing and Construction LLC has partnered with include Avant, Lending Point, Marcus by Goldman Sachs, Payoff, Prosper, and SoFi.

The company owner says many homeowners do not realize how many benefits there are to financing home

improvement projects. As was mentioned, it will enable them to get projects underway as soon as possible that might otherwise have been delayed because of cost. He noted that important home improvement projects that are put off also run the risk of becoming bigger and more expensive repairs over time. Financing payment plans will also allow the homeowner to spread out their payments over time. This is much preferred over lump-sum payments because it helps lighten the immediate financial load of any roofing or home improvement project.

Sakowski stated that once a customer gets approved for financing, they will get the ball rolling on that project and get it completed as soon as possible. He says that they work hard to satisfy every customer that contracts roofing and other services with them. They never cut corners even when it comes to cleaning up after the work is done. A recent review backs that statement up and gave much credit to how much effort Grace Roofing and Construction LLC puts into the home improvement projects that they take on. In this review, Stephen Crenshaw writes, "We loved the quality of the job and really the whole experience was amazing. The crew was very courteous, friendly, and hard-working. They did a great job with the cleanup too. Several areas were even cleaner than before they started." This 5 out of 5-star review was taken from the company's Google Maps Business Listing which can be seen here at <https://g.page/GraceRoofing27260?gm>.

Sakowski went on to say that for the 25 years that the company has been serving the Piedmont Triad Area of North Carolina they have tried to provide their customers with reliable and honest work. He states that includes doing such things as offering free inspections and estimates. In addition to their residential roofing and gutter and downspout replacement services, the company owner mentioned his crews are very proficient when it comes to doing several different types of commercial roofing projects. More information on Grace Roofing and Construction LLC's services can be seen on the company's Google Maps Business Listing mentioned above and on their website.
