Winston Salem NC Roofing Contractor Now Offering More Quality Financing Solutions Than Ever Before

July 07, 2020

July 07, 2020 -
Winston Salem Roofing Contractor, Grace Roofing LLC, would like their customers to know that they are now offering several financing options on their reputable roofing and other home improvement services. This also includes this highly recommended contractor?s gutter and downspout replacement services. These financing arrangements can even be used for multiple home improvement projects that are being done at the same time. The company states this is their way of giving back to their customers so they can enjoy the benefits that financing home improvements offer them.

Richard Sakowski, the company owner, said, ?There is never really a good reason to put off roof and other repairs around the home. This is especially true with roof leaks because they will only get worse and cause more damage over time. And now with our easy financing options, no one has to put off getting any important roof repairs, gutter and downspout replacements, or other home improvement work done. Our financing options have never been better so we encourage those whose budgets are a little tighter than expected to discuss their options with our excellent finance partners.?

The company owner went on to say that these roof financing options provide the perfect way for those that have been impacted financially by the current virus crises to go ahead and get their work started immediately. Sakowski says that otherwise, these home improvement projects that have been put off might very well lead to bigger and more expensive repairs on down the road. Another benefit that those who choose to finance their roofing work get is they do not have to make a large payment for their home improvement work all at once. He says that by spreading payments for home improvements out over time, this makes it much easier for people to more reasonably manage their expenses.

Sakowski says that they are not just partnering with any old financing providers either. They are teaming up with some of the most reputable names in the home improvement lending business. This includes Avant, Lending Point, SoFi, Payoff, Prosper, and Marcus by Goldman Sachs. These lenders will provide their

customers with up to $100,000 in financing for roofing and other home improvement projects without equity in the home being required. He also mentioned that there are no penalties for early payoff, searching different credit providers will not hurt a customer?s credit score, and the finance companies are accepting applications from those with poor, fair, good, very good, and excellent credit. Sakowski stated that he is very pleased that their lending partners have gone to great lengths to make the approval process quick and easy. They are offering exceptional financing rates too. Grace Roofing LLC has even gone so far as to post a pre-approval form and an approximate monthly payment cost calculator on its website.

Customers seem generally pleased with the roofing and other home improvement services that Grace Roofing LLC offers too. Here is an example of that in a perfect 5-star review taken from the company?s Google Maps Listing. In this review, Annie Johnson states, ?We had Grace Roofing replace our roof. I am very pleased. Excellent Workmanship! They paid close attention even to the smallest details. Completed in just two days and clean up was fast and efficient. We now have a beautiful roof that adds value and curb appeal. I highly recommend them.? This is one of nineteen reviews that have been left on Grace Roofing LLC?s Google Maps listing and all of them rate the company 5 out of a possible 5-stars. To see the other reviews on the company?s Google Maps Listing, one simply has to follow this link to https://g.page/Graceroofingllc?gm.

Sakowski added that his company has been providing quality roofing services for those in the Piedmont Triad Area of North Carolina for over 25 years. He says that those at the company make it a point of emphasis to do reliable and honest work and treat their clients to some great customer care while working for them. They offer free inspections and estimates and they are also very well-known in the area for their commercial roofing services.
