July 07, 2020 -
GadgetSource USA, based in Lynden, Washington, has announced the successful release of their new Bluetooth speaker for bicycles. The new product is an outdoor portable speaker that can be mounted on a bicycle and it is compatible with both Android phones and iPhones. This is a product for bicycling enthusiasts who find it inconvenient and annoying to wear headphones or earphones while biking. Before heading off, they will just need to hook up their iPhone or Android phone through Bluetooth, start their playlist, and listen to music while biking.

Dan LHeureux, a spokesperson for GadgetSource USA, says, ?We?re really excited to announce the successful launch of our new portable Bluetooth speaker that can be mounted on your bicycle. Just imagine how much more convenient it would be to listen to your favorite music while biking without having to wear bothersome headphones or earphones. In addition, it has several other functions, such as an FM radio and LED flashlight.?

The product has a number of functions that bicycling enthusiasts may find helpful. These include the FM radio function, power bank function, LED flashlight function, and a micro SD / TF card slot. It works with Bluetooth version 4.0, has a battery capacity of 4000 mAh, music playing time of 8 to 10 hours, and a charging time of approximately 5 hours. It comes with a bike mount bracket, carabiner, AUX audio cable, USB charge cable, and an English manual.
