Toronto DUI Lawyer, a Toronto, Ontario based law firm that focuses primarily on impaired driving cases, would like to reach out to clients in the area that may be in need of an impaired driving lawyer in Toronto. The firm specializes in cases involving driving under the influence and has helped hundreds of drivers face DUI cases over the years.

A lot of the time, drivers do not know what to do when they are arrested for driving under the influence. ?Getting arrested for impaired driving charges is a frightening experience, especially for first-time offenders,? the firm says. ?Failing to act immediately can result in you losing your case at trial, and you might be subjected to the maximum punishment for your impaired driving charges. It is always advisable to contact an experienced impaired driving lawyer when one is in such a situation. Speed is of the essence if a good defense on behalf of the accused is to be planned. We employ a team of investigators that gather evidence first-hand to evaluate whether the charter rights of the accused have been honored. Our defense lies in utilizing this evidence at trial as well as cross-examining the Crown witnesses.?

In Toronto, Ontario, impaired driving charges are centered around Section 253(1) which states that everyone

commits an offense who operates a motor vehicle or vessel or operates or assists in the operation of an aircraft or railway equipment whether it is in motion or not while their ability to operate the vehicle is impaired by alcohol or some other drug or after having consumed alcohol in such a quantity that the concentration in their blood exceeds eighty milligrams of alcohol in one hundred milliliters of blood. An experienced Toronto DUI lawyer will know how to find all the necessary information to get their client off the impaired driving charges.

?Do not hesitate to contact us if you have received a DUI offense in Toronto,? says the firm. ?Your experienced impaired driving lawyer will undertake several procedures to evaluate whether all laws have been strictly followed. Apart from the essential elements such as time and date, the identity of the accused and the jurisdiction, the officer should also have reasonable grounds to suspect that the accused impaired ability is caused by the consumption of alcohol or drugs. In addition, it should be determined whether the accused had been in control of the vehicle over the past three hours. In this case, a demand can be made for physical coordination tests to check for sobriety. Based on these tests, a further demand can then be made for an approved instrument check, a blood test or one for drug evaluation. An experienced impaired driving lawyer will seek to determine whether all the legal procedures were followed before the DUI charges are imposed.?

The firm?s goal is to ensure their lawyers have an advantage that clients can use to win their cases. The initial consultation is free, and clients actually meet the lawyer, not an associate. Often, DUIs are extremely stressful to deal with?this is why the firm does not impose a limit on the first meeting.

A DUI conviction is something that most people do not want on their record. It may close a few doors in the future or be crippling career-wise which is why many people go to great lengths to ensure that they have the best possible representation possible when facing an impaired driving charge. Toronto DUI Lawyer is one of the top firms when it comes to dealing with DUIs, and one can rely on them to fight an impaired driving charge.

?We aim to lead in each practice and area of law we work in,? says the firm. ?Coming from an in-depth understanding of drunk driving laws and the DUI industry, capitalizing on extensive experience, we provide hands-on advice that speaks the language of our clients. We never give up whether we are fighting an impaired driving charge, over 80m.g charge, care and control or a multiple-DUI offense.?
