

Ethos Spa Skin & Laser Center Discusses Benefits Of Sculptra Glute Lift

July 15, 2020

July 15, 2020 - PRESSADVANTAGE -

Summit, New Jersey based Ethos Spa, Skin & Laser Center is reaching out to the community to share information on the benefits of the Sculptra Brazilian glute lift. This insight explores how interested parties may prepare for a Sculptra Brazilian glute lift, explains how it works and shares what results to expect.

Dr. Hardik Soni of Ethos Spa, Skin & Laser Center says, "The Sculptra is one of the most innovative cosmetic procedures out there. It is non-invasive, utilizing natural elements to stimulate the body's natural collagen production. The beauty of a Sculptra Brazilian glute lift procedure lies within its simplicity. Traditional glute lifts require invasive surgery that takes fat from other areas of your body, producing scarring, pain and long recovery times after the surgery, making for an awful overall experience. Meanwhile, the Sculptra glute lift is a simple one-step procedure, producing minimal swelling and downtime with absolutely no scars."

The all-natural aspect is one of the key benefits of the Sculptra butt lift procedure, as many patients worry about the possible downsides of implants and other invasive methods. During a Sculptra butt lift procedure,

the creases of the patient's butt are filled in by the Sculptra volumizer, which engages with the body's natural collagen facility. This is a common substance in cosmetic medicine that is widely popular for not having any major side-effects.

When it comes to the duration and complexity of the treatment, Sculptra Brazilian glute lifts are fairly simple. Patients attend 3-4 treatments over the course of 4-6 weeks where they receive the treatment in sessions no longer than 10 minutes. This is enough to produce long-lasting results, and most patients see results up to 2-3 years after the initial procedure. Naturally-produced collagen can actually stay in the body for up to seven years, meaning results can last much longer in ideal circumstances. However, these results can be renewed with periodic Sculptra treatments as well.

Dr. Soni states, "These results are immediately apparent as soon as you receive your first Sculptra injection. However, as Sculptra is meant to stimulate collagen production in the injected area, results will only continue to become more apparent and improve over the next few months. When it comes to specific details about the results, you can expect a shapely volume with round buttocks. Your butt will feel and look as natural as it always has, if not even better than before."

Aside from offering Sculptra Brazilian glute lifts, the Ethos Spa, Skin & Laser Center also offers several other cosmetic procedures. These include Botox Injections, Laser Hair Removal, Lip Injections and Tattoo Removals, among several other services. The local center enjoys an outstanding reputation for their high standards of service as well, and they are known as New Jersey's #1 Expert Coolsculpting Provider. More information on these services is available here: <https://www.myethosspa.com/brazilian-butt-lift-nj/>.

The Center boasts several testimonials that demonstrate the satisfaction of their patients. One of their most recent testimonials, written by Jody Gibson, says, "I had many questions and even more concerns about my laser hair removal procedure, but Dr. Hardik Soni explained everything to me and I calmed me down. Everything went fast and there was no pain, whatsoever. The atmosphere was great, and the staff were amazing. I can only say the best about Ethos Spa."

Another comment by Carin Stebber says, "My butt looks so much better in jeans but the butt lift wasn't even the best part. Met up with two doctors and they were both so polite, answering all my questions. As a customer, it's so important to feel included in the process, and that's exactly what they did! Looking forward to trying out the other services! Definitely bringing my friends here."

The company's website offers more details on the Ethos Spa, Skin & Laser Center and their services. Interested parties may reach out to Dr. Hardik Soni to follow up on any inquiries as well. They may also

connect with the company through their official Facebook page as well as their other social media platforms.
