

Hair Restoration Center Re-Opens

July 14, 2020

July 14, 2020 - PRESSADVANTAGE -

Invisible Hair is now open following the easing of restrictions by the pandemic.

July 10, 2020, Vista, CA- Invisible Hair Restoration Center in Vista has announced its reopening. The hair replacement service has been closed since March due to California's Executive Order for COVID-19. When state restrictions were eased, salons were able to reopen in San Diego County. Invisible Hair is now open, taking appointments.

Owner Dawn Harrison has continued to assist customers through phone consultations during the quarantine. Now Harrison's doors are open to serve clients seeking help for medically related hair loss. With nearly a three months supply of hairpieces and wigs in stock and the new incoming collection of the latest styles and colors, Harrison is having a sale of dozens of display pieces.

"To make room for our new collection, on sale now through August, are every size of exquisite quality of natural hairpieces in dozens of colors, lengths, and curl patterns," says Invisible Hair Owner Dawn Harrison. "Mention our reopening sale and receive a free cut in or trim with the purchase of a new hair addition through August."

Harrison has been in the hair enhancement industry since 1986. She invented and patented the Invisible Hair non-surgical hair graft technology, which uses medical-grade materials or premium human hair. The grafted hair enhancements are attached to the skin between one's hair. For those with significant hair loss, Invisible Hair has wigs in all sizes and colors. Medical wigs and high fashion wigs come in petite, average, and large head sizes. Some of the wigs available are hand-tied, lace front top pieces, and nonslip self-gripping wigs.

Invisible Hair serves clients all over Southern California as a solution for hair loss. They are located at 1946 Monte Vista Drive in Vista, San Diego County. To schedule a complimentary personalized consultation, call (760) 727-9770, or go to <https://invisiblehair.com/>.
