Bessemer, Ala. ? Beltone USA, a leading hearing physician in Bessemer, AL, is offering patients the opportunity to try the Beltone Amaze 9 & 17 hearing aids through the month of July. This offer allows Beltone patients to experience these first-rate hearing aids while in the office, giving them the ability to make a fully informed decision regarding their hearing care needs.

The Beltone Amaze hearing aid provides the listener with a smooth, natural, and rich sound. This device is perfect for those with mild hearing loss, as well as severe cases. One of the best features this hearing aid provides is the ability to connect with the Beltone HearMax app, where real-time adjustments can be made to the hearing aids from a distance. This saves the patient a trip to the office, making their hearing aid experience much more convenient.

To provide the highest possible level of safety and comfort to their patients, Beltone USA is now offering video appointments. These virtual appointments will be conducted through Beltone HearMax Care Live,

which will allow hearing care experts to meet with the client through a face-to-face video. The hearing specialist will then be able to make adjustments to the patient's hearing aids through the Beltone HearingMax app. Beltone USA trusts that this virtual option for appointments and consultations will greatly benefit patients who may not be comfortable going into the office and wish to remain safe at home.
